

SUBJECT INDEX

A

A La Carte Meal Service (Kadlec Medical Center), 89–90
Adherence, 221
Adverse events, 261–262
Advisory Board, 206
Agency for Healthcare Research and Quality, 199–200, 251, 253, 276
Alameda County study, 15
Albany Stratton VA Medical Center, 259
Alberta Children’s Hospital, 58
Alcoholics Anonymous, 32
Alegent Health, 17–18
Alliance Community Hospital, 158, 159
Allopathic (traditional) medicine, 115
Ambulatory Quality Alliance, 277
American Academy of Family Physicians, 274
American Academy of Pediatrics, 274
American College of Physicians, 274, 291
American Hospital Association, 250
American Hospital Association Survey of Hospital Leaders (2007), 206
Architectural design. *See* Facility design
Aromatherapy, 124, 232
Art
 artist and designer preferences for visual images and, 136
 behavioral health and healing power of, 231–232
 biophilia theory on health outcomes and, 132–133, 136
 continuing care enhanced through, 237–238
 emotional congruence theory on health outcomes and, 133–134
 general public preferences for visual images and, 134–135
 guidelines for selecting health care, 141–143
 patient preferences for visual images and, 135–136

Planetree art programs, 143–145
 as positive distractions, 144
 stress-reducing effects of viewing, 137–139
 See also Visual images
Ask Me 3 Web site, 251
Aurora BayCare Medical Center
 integrated health care journey by, 242–246, 288
 lessons learned and future challenges facing, 246–247
Aurora Medical Center Oshkosh
 café of, 162–163
 healing garden of, 160
 integrated health care approach used by, 242–247
 rooftop garden of, 158
Aurora Sinai Medical Center (ASMC), 252–253, 254–255

B

Baby boomer generation, 197, 206
Baked goods, 163
Balanced Budget Amendment (BBA), 197
Banner Health System, 108
Bayhealth Medical Center, 58
Beck Depression scale, 124
Bedside report, 34, 36
Behavioral health
 access to information related to, 231
 allowing family, friends, and social supports for, 230–231
 human interactions focus of, 230
 Moral Treatment approach to, 228–229
 New York—Presbyterian Medical Center adoption of patient-centered care for, 229–232
 patient safety, food, and healing arts for, 231–232
 spirituality, human touch, complementary therapies, and health communities for, 232

312 Subject Index

- Being present, 12–13
Best practice protocols, 214, 224
Bioactive (life sustaining) relationships, 9
Biocidal (life destroying) relationships, 8–9
Biogenic (life giving) relationships, 8, 9
biological health, 177
Biophilia theory, 132–133, 136
Biostatic (life restraining) relationships, 9
Bipassive (life neutral) relationships, 9
“Bird Garden” sculpture, 141
Block Buddies Program (Sentara Williamsburg Regional Medical Center), 185–186
Body-spirit dualism, 97–98
Bureau of Labor Statistics, 207
Burnout, 223
- C**
- Café (Aurora Medical Center Oshkosh), 162–163
CAHPS (Consumer Assessment of Health Care Providers and Systems), 276
CAHPS Hospital Survey (HCAHPS), 192, 201–203, 217, 218, 276, 280, 291
Calgary Health Region, 58–59, 66
Calgary Health Region Patient/Family Safety Council, 262–263
California Pacific Medical Center, 98, 103
CAM (Complementary and Alternative Medicine)
behavioral health and use of, 232
continuing care and use of, 236
description of, 114–115
epidemiology and population significance related to, 115–118
integrative medicine using, 119–124
Planetree’s approach to incorporating, 124–126
Canadian Institute for Advanced Research, 179
Carative factors, 10
Care Coordination conference, 34
Care Partners Program, 63, 64–65, 275
Care pathways, 198
Caring moment, 9, 12–13
Caring relationships
practitioner-to-patient, 12
practitioner-to-self, 10–12
for types or levels of, 8–9
Caritas, 10
Centers for Medicare and Medicaid Services (CMS)
financial incentives to promote improved outcomes by, 218, 219, 286
HCAHPS national averages reported by, 203
medical home concept demonstration by, 274
patient-centered care goal announced by, 291
public reporting of quality indicators required by, 216, 276, 277, 287
Centre de réadaptation Estrie (CRE), 105–106
Certified Pet Therapy, 71
Children’s art preferences, 136
Chronic care model of care, 62–63, 274, 279
Cincinnati Children’s Hospital, 280
Cleveland Clinic, 40–41
Clinical caritas model
description of, 13
interconnection between *communitas* and, 14
“Code H” (or “Code Help”), 61
Columbia Memorial Hospital, 108
Columbia Presbyterian Medical Center (NYC), 119
Communication
human interactions in patient-centered care and, 251–255
patient satisfaction through staff, 21–23
for patient/family education, 31
Communitas
description of, 13
interconnection between *caritas* and, 14
Community
definition of, 179
health care quality through partnership with, 258–259
hospitals within, 179–180
Community health information
community health libraries as source of, 42–43
Griffin Hospital’s Mini-Med School program as source of, 46–47
increasing availability of, 41–42
models for health libraries, 44–45
Planetree Health Resource Centers as source of, 44

Planetree libraries as source of, 43
 promotion and outreach through, 45–46
 Community House Calls Program (Harborview Medical Center), 178
 Community Plunge Initiative, 183
 Compliance, 221
 “Concepts of Community” (Friedman), 180
 Confidentiality requirements, 155
 Consumer-driven health care, 218
 Continuing care
 challenges of, 233–234
 complementary therapies/wellness programs used in, 236
 food, arts, activities to facilitate, 237–238
 Hardinxveld-Giessendam (Netherlands) approach to, 240–241
 healing environment conducive to quality living in, 238
 information and education to empower individuals in, 236–237
 lessons learned from Wesley Village’s experiences, 238–239
 Planetree components for, 235–238
 Wesley Village’s change to patient-centered approach to, 234–235
 Woonzorggroep Samen (Netherlands) approach to, 239–240
 See also End-of-life care
 Council of Accountable Physician Practices, 273
 CQI survey (Netherlands), 217
 Creating destinations concept, 235
Crossing the Quality Chasm (IOM), 268, 273

D

Dana-Farber Cancer Institute, 261, 280
 Decision making
 payer perspective on, 217–219
 shared decision-making model of, 61, 216–217
 spirituality role in process of, 99
 See also Information

 Dying. *See* End-of-life care

E

E-information, 40, 216
 Eastern spirituality, 97–98
 Emotional congruence theory, 133–134
 Emotional intelligence, 10
 End-of-life care
 good death goal of, 107
 music-thanatology for, 145–146
 spirituality role in, 106–108
 See also Continuing care
 Enhancing life’s journey, 235
 Entrance design, 166
 Environmental control, 165
 Environmental health, 179
 Ernst & Young LLP, 198

F

Facility design
 behavioral health and, 231
 education spaces as part of, 170
 patient environmental control facilitated by, 165
 recommendations for general, 165–168
 separation of traffic types component of, 168
 staff support areas as part of, 168–169
 staff workstations as part of, 169–170
 Families
 behavioral health inclusion of, 230–231
 benefits of health care involvement by, 56–57, 59–60
 changing the concept as visitors, 58–59
 continuing care incorporation of, 236
 engaged as safety advisers, 262–263
 health care quality role of, 257–258
 importance as health partners, 54–55
 Internet access available to, 40
 personal commitment to patient-centered care by, 297
