

# Subject Index

- Abacus, 19–20, 30  
*Abax*, 20  
Absolutism, 77  
Accounting methods, 42  
Active management, 297–298  
Actuarial science, 131  
Addition, historical perspective, 30, 33  
Africa, 153, 155  
Agricultural cooperatives, 93. *See also*  
    Farmers  
AIM Constellation Fund, 210–211, 259,  
    286  
Alcoa, 3  
*Alea*, 47  
*Aleatorius*, 47  
*Aleatory*, 47, 55  
Algebra  
    ancient Greeks and, 31  
    development of, 32–33  
    Diophantine equations, 32  
    fundamental theorem of, 135–136  
    in Middle Ages, 42  
    problem of the points, 63  
    in seventeenth/eighteenth centuries,  
        55  
    symbolic, 32  
Algeria, 24  
Algorithm  
    defined, 30, 33  
    genetic, 333  
*Al-jabr*, 33  
Alpha, 29  
Alphabetic numbering system  
    discovery of, 29  
    impact of, 31  
*Al zahr*, 13–14  
Ambiguity aversion, 280–281  
*American Demographics*, 83  
American Fibonacci Association, 28  
American Mutual Fund, 208–211, 286  
American Revolution, 130  
Amicable numbers, 62  
Amsterdam stock exchange, 4  
ANB Investment Management & Trust,  
    244–245  
Ancient Egypt  
    gambling roots, 13  
    geometry in, 30  
    probability theory, 29  
Ancient Greece  
    alphabetic numbering system, 29  
    daily life, 16  
    dice, 11–22  
    gambling roots, 13, 15–16  
    golden mean, 26  
    life insurance, 92  
    probability theory and, 15–17  
    proofs, 30–31  
    science of probability, 43–44  
    standard of living, 16  
    truth, 16  
    winds, 16

- “An Economic Theory of Self-Control” (Shefrin), 289  
*Annals of Mathematics*, 63  
 Annuities. *See also* Insurance  
     historical perspective, 4, 57  
     life expectancy tables and, 87  
*Annuities upon Lives* (de Moivre), 126  
 Anomalous behaviors, 288–289  
 Anthropometric Laboratory, 153  
 Antisocial behavior, 206  
 Apodeictic certainty, 221  
*A posteriori* probability, 121–123  
*A priori* probability, 121, 123, 220  
 Arabic numbering system  
     calculations with, 24, 31  
     discovery of, 19  
     implications of, 34–35  
 Architecture  
     Arabic number system and, 20  
     Italian Renaissance, 39  
 Arithmetic  
     historical perspective, 30, 33  
     mean, *see* Arithmetic mean  
     in Middle Ages, 42–43  
*Arithmetic* (Diophantus), 62  
 Arithmetic mean  
     defined, 140, 226  
     Law of Averages, 5, 14, 123, 286  
*Ars Cogitandi* (*La logique*), 70fn  
*Ars Conjectandi* (*The Art of Conjecture*)  
     (Bernoulli), 100–101, 118–119, 125  
*Ars Magna* (*The Great Art*) (Cardano), 47, 53  
 Arthur D. Little management consulting  
     firm, 311  
 Association for Investment Management &  
     Research, 178  
 Assumptions, forecasting and, 121  
 Astragalus, 12–13, 18, 44  
 Astronomy  
     Ceres discovery, 138  
     historical perspective, 29, 84, 101, 139,  
         158  
 AT&T, 310  
 Average man (*l’homme moyen*), 159–160, 170  
 Averages of averages, 143–144  
 Aversion, to the mean, 178  
  
 Backgammon, 52–53  
 Backwardation, 306  
 Baghdad, 31  
  
*Balla*, 43, 61, 65, 67–69, 95, 119, 150, 215,  
     269, 310  
 Balliol College, 88  
 Bankers Trust, 321, 323–324, 326  
 Bank for International Settlements, 322  
 Banking industry  
     numbering system development, 35  
     risk control, 327–328  
 Bank of America, 321  
 Basle Committee, 327  
 Battle of Legnano, 25  
 Bayes’s theorem, 5, 131–133  
 Baylor University, 178  
 Behavioral finance, 269–303  
 Belief  
     degrees of, *see* Degrees of belief  
     subjective, 6–7  
 Bell curve, *see* Normal distribution  
 Berkeley, 316  
 Bidding competitions, 243–244  
 Big Bang, 15  
 Billiards, 132–133, 187  
 Bills of Mortality, 74, 76, 78–81, 83  
 Bingo, 14  
 Binomial theorem, 66, 127  
 Biogen, 157, 170  
 Black-Scholes model, 315–316  
 Boeing, 3  
 Bonds  
     in Confederate States, 308–309  
     features of, 183–184  
     selling, 300  
     volatility, 222, 260, 263  
     yields, 334–335  
 Bookkeeping  
     double-entry, 42  
     numbering system development and,  
         21, 25  
*Book of Squares, The* (Barbarossa), *see* *Liber*  
     *Quadratorum*  
*Book of the Abacus*, 23–24  
 Bottomry, 92  
 Box cars, 51  
 Brazil Fund, 260  
 Breaking even, 203  
 Breslaw, sampling research, 84–86  
 Bretton Woods Agreements, 224, 246,  
     251  
 British Association for the Advancement of  
     Science, 168

- British census, 191  
 Budapest, 233  
 Business cycles, 192–193, 246  
 “But only for the most part,” 4, 118, 329  
 Buttonwood Tree Agreement, 307  
 Buy-and-hold strategy, 263, 301  
 BZUXRQVIICPRGAB, 198, 212  
 BZW Global Investors, 259
- Cadasters, 77  
 Calculation  
   language, development of, 34  
   methods, 19–20  
 Calculators, 59, 316  
 Calculus, historical perspective, 20, 31, 55, 61  
 Call options  
   defined, 307, 310  
   valuation, 312–315  
 Cambridge, 223–224  
 Capital Asset Pricing Model (CAPM), 258–259  
 Capitalism  
   government intervention in, 222, 228  
   motivation in, 219  
   risk-taking and, 21  
 Capital markets, 298–300  
 CAPM, *see* Capital Asset Pricing Model  
 Card games, 13  
 Cardano’s “circuit,” 51, 64–65  
 Casino  
   as growth industry, 13  
   insurance process compared to, 93  
   probability theory and, 119  
   stock market compared to, 12  
 Cause-and-effect  
   chaos theory and, 201–202  
   information availability, 202–203  
   insurance premiums and, 204–205  
   passive smoke research, 212–213  
   savings and loan associations illustration, 206  
   significance of, 197  
   speculation, 199–200, 204  
   uncertainty and, 198–199  
 CBOE, *see* Chicago Board Options Exchange  
 Census, 158, 191  
 Central limit theorem, 143  
 Ceres, 138  
 Certainty  
   defined, 123  
   equivalent, 113–114, 239  
 Chamber of Assurance, 92  
 Chaos theory, 6, 201–202, 332–334  
 Chapel of the Pyx, 74  
 Chase Bank, 321  
 Cheating, 13, 45  
 Chemical Bank, 321  
 Chess, 232  
 Chicago Board Options Exchange (CBOE), 315–316, 319  
 Chicago Board of Trade, 307, 315  
*Cho-ai-mai*, 306  
 Choice theories, 281  
 Church of England, 81  
*Cifr/cipher*, 32  
 Cipher-alphabet system, 29  
 Citibank, 321  
 Coca-Cola, 108, 287  
 Code of Hammurabi, 92  
 Coefficients, 66  
 Coffee houses, 89–90  
 Coin-tossing game, 53, 69–71, 103, 122–123, 207, 283  
 Collateral  
   futures contracts, 318  
   portfolios as, 294  
 Columbia University, 311  
 Combinations  
   in craps, 51–52, 55  
   decision-making process, 238  
   dice, 142–143  
   illustration of, 103–104  
 Commodities  
   futures contracts, 205–206  
   market volatility and, 320–321  
   prices, 302  
 Competition, perfect, 220  
 Complete market, 204–205  
 Compulsive gambling, 12–13  
 Computerized trading, 244, 298  
 Computer technology, implications of, 302, 336  
 Confederate bonds, 307–310  
 Confederate States of America, 307–310  
 Conjecture analysis, 101–102, 118  
 Consolidated Edison (Con Ed), 291–292  
 CONSTANTINOPLE, 198, 212  
 Continental Airlines, 320

- Contracts. *See also specific types of contracts*  
 farmer, 305–306  
 foreign exchange, 321  
 function of, 205–206  
 hedging, 323  
 notional value, 321–322
- “Contrarian Investment, Extrapolation, and Risk” (National Bureau of Economic Research), 293
- Convergence process, 180
- Conviction, probability studies, 160
- Cornell University, 218–219
- Correlation, 168. *See also* Covariances
- Cost-of-living index, 184
- Cotton loan, 307–308
- Counter-Reformation, 102
- Counting device, 19–20, 30
- Court cards, 13
- Covariances, 258, 289–292, 322, 326
- Craps  
 historical perspective  
   in America, 12–13  
   in early Greece, 15  
 probability illustration, 51–53
- Crusades, 13, 18–19, 24
- Cubic equations, 47
- Cynicism, 218–219
- Daily living activities, significance of, 16, 182
- Dart games, 281
- Data mining, 161
- Deca, 29
- De Caelo* (Aristotle), 44
- Decision-making  
 ancient Greek strategies, 17  
 asymmetry in, 272  
 basis of, 6  
 certainty in, 220  
 games of chance and, 7  
 information processing and, 199, 202, 278  
 instinctive, 18  
 irreversibility of, 15  
 mathematical inevitability, 232  
 motivation in, 274  
 nature of, 3–4  
 nonrational, 291  
 preferences and, 246  
 Prospect Theory and, *see* Prospect Theory
- rational, 234, 271  
 regression to the mean and, 172–173  
 risk in, 110  
 theory development, 69  
 uncertainty in, 217, 227–228  
 utility and, 110–111
- Decision regret, 285–286, 290, 293, 297, 303
- Decision theory  
 development of, 69–71  
 utility and, 188
- De Divine Proportione* (Paccioli), 42
- Default, 183–184
- Degree of satisfaction, 238–239
- Degrees of belief, 49, 225–226, 258, 271, 326. *See also* *A priori* probability
- Delta, 29
- De Mensura Sortis* (*On the Measurement of Lots*) (de Moivre), 126
- Derivatives  
 defined, 200, 304–305  
 disasters in, illustrations of, 323–325  
 features of, 305  
 function of, 326  
 hedging, 308, 335  
 historical perspective, 304–305  
 notional value, 322  
 options, 307–308  
 risk and, 287  
 types of generally, 305  
 uncertainty in, 304–305, 314  
 volatility and, 305–306, 327
- De Subtilitate Rerum* (“On the Subtlety of Things”) (Cardano), 46
- De Vita Propria Liber* (*The Book of My Life*) (Cardano), 45–46
- Dice  
 “a God who plays with,” 330  
 historical perspective, 12–13, 44–45  
 implications of, 7  
 motion theory, 201  
 multiple, 52–53, 55
- Diophantine equations, 32, 36
- Disquisitiones Arithmeticae* (Gauss), 137–138
- Distribution  
 of impressions, 293  
 normal, *see* Normal distribution
- Diversification  
 implications of, 3, 6, 93, 206, 252  
 international, 295  
 management techniques and, 301

- mathematics of, 253
- power of, 254–255
- risk management and, 302
- strategic role of, 252–253
- Dividends
  - corporate payment of, 290
  - home-made, 290
  - stocks and bonds, 183–185
- Diving Company, 88
- Division
  - distribution method, 67–68
  - historical perspective, 30, 33
- Doctrine of Chances, The* (de Moivre), 125–127
- “Does the Stock Market Overreact?” (Thaler/DeBondt), 292–293
