

# Subject Index

## A

Above-average profits, definition, 3

Acquisition strategy

- acquisition process, 107
- cost synergies prediction, 68
- creation/destruction of value for firm, 107
- as diversification method, 97, 105–106, 106t
- to enter international market, 166
- integration process, 107–111, 109f, 109t
- premiums, 107
- scale and experience curve decision tool for, 68–69

Adjacent market, 98

- definition, 98

Administrative arbitrage, definition, 162–163

Administrative distance

- definition, 156
- and international expansion, 156–157

Advertising (nonproduction cost), 61

- See also Marketing

Affordable Health Care Act (2009), 34

Agency problem, 233–234, 234f

Agents, 233

Aldi, example of cost advantages, 58–59

Alignment

- definition, 212
- inclusion of Stakeholder and Situation, 216–217, 217f
- See also 7 S model of alignment

Alliance

- creating value through, 137–139
- definition, 165
- as diversification method, 97
- equity, 135
- example in social value organization, 249
- joint venture, 135
- “learning,” 137–138
- nonequity (contractual), 134
- risks, 139–142
  - hold-up, 139
  - misrepresentation, 139–140
- trust as key to success, 140
  - legal contracts, 140–141, 141t
  - personal trust, 140
  - shared ownership/financial collateral bonds, 141–142
- types, 134–137, 134f
- vertical and horizontal, 135–137
- See also Strategic alliance management
  - capability; Strategic alliances; Value creation through alliances

Alliances, and access to complementary assets, 165–166

Amazon

- business model vs Barnes & Noble business model example, 175, 205
- value chain reconfiguration, 176–178
- business units, 10
- convenience, 81
- different business model, 72
- diversification examples, 97
- markets, 19

Mechanical Turk, 125

- “one-click” purchase option, 86

American Home Products, strategy in practice, 4

Analysis

- external (SWOT), 5, 8
  - customer analysis, 9
  - industry analysis, 8
- See also Strategic analysis

Apple

- chief executive officer (CEO) compensation, 236
- chip design vertical integration example, 119
- competition with Google Maps, 103
- competitive advantage over Dell, 126
- differentiated products/prices, 77–78
- differentiation strategy, 6, 79
- and economic arbitrage, 162
- emergent strategy example, 12
- evolving mission, 9
- innovation example (computer mouse), 173
- integration strategy, 109
- key strength, 200
- markets, 6
- premium price for high-end disruptive innovations, 178–179
- store, 7, 11
- strategic alliance with AT&T, 10, 132
- use of Gorilla Glass, 44
- vertical integration, 96

Arbitrage strategy

- definition, 162
- and ethics, 162
- for local integration and cost reduction, 162

Arms-length relationships, 132

*The Art of War*, 2

Assets

- complementary, 165
- definition, 45

Asset-sharing platform (innovative strategy), 181–182

Associational thinking, primary skill of innovators, 183

ASUS

- vs Dell vertical integration approach, 116, 118
- outsourcing strategy, 116, 126

Attractiveness of an industry, 29

- definition, 21
- and Five Forces model, 30
- new perspective about, 30

## B

Backward integration, 117–118

- definition, 24

Balanced scorecard

- definition, 225
- tool, 225, 225f

Bargaining power

- buyer, 24
  - over suppliers, 70
  - and price sensitivity, 23–24
- supplier, 25

Barriers

- to change, 219

- to competition, 87, 126
- to entry, 25, 202
- government sanctioned, 206
- to imitation, 52, 119, 126
- to mobility, 192

Base of the pyramid (BoP), 255

“Big 4,” and globalization, 154

Blended acquisition, 109–110

Blue ocean strategy, 180–181

- definition, 180

Board of directors, 234–235

- California’s diverse board, 235
- definition, 234

Boeing Aircraft

- innovation example, 173
- new leadership policy, 215, 240

Bolt on acquisition integration strategy, 110

Bonuses, 236

Boston Consulting Group (BCG)

- experience curve development, 65–67
- growth share matrix, 104–105, 105f

Brand image, 82

Bundling strategy, 184

Bury/takeover integration strategy, 108–109

Business model

- Business Model Canvas tool, 175
- and cost advantage, 71–72
  - perform new activities, 72
  - streamline value chain, 71–72
- definition, 71, 175
- dimensions of, 174
- dominant logic of, 100–102
- and revenue model, 174

Business Roundtable, purpose of corporation, 231

Business strategy, 2–7, 212

- alignment, 212
- beneficiaries of (stakeholders), 13
- definition, 2
- deliberate and emergent, 12
- and ethics, 13
- factors, 3
- responsibility for, 12–13
- See also External environment (of industry/market); Strategy implementation

Business unit strategy

- vs corporate strategy, 96–97
- definition, 10

Buyer bargaining power, 24

Buyer price sensitivity, 24

Buyer power, 22, 23–24

- backward integration threat, 24
- buyer bargaining power, 24
- buyer price sensitivity, 24
- number/concentration of, 24
- and switching costs, 24

## C

CAGE. See International strategy/expansion location issues

CalPERS (the California Pension and Retirement System), 230

- Cannibalization, fear of by incumbents, 179
- Capabilities, 45–46
  - definition, 45
  - dynamic, 46
  - first C of vertical integration, 118–119
  - as “how” of competitive advantage, 45–46
  - operating, 45
  - See also Strategic alliance management capability
- Capacity building, 252
- Capital arbitrage, definition, 162
- Cash donations, 250
- Causal ambiguity, 50
- Challenges
  - of conglomerate, 102
  - ethical, 13, 107, 238, 239
  - management, 166
  - political/legal/regulatory forces and, 34
  - in social entrepreneurship, 255–256
- Change
  - difficulty of, 217–218
  - eight key tasks, 219–222
  - institutionalization of, 222
  - process summarization, 222f
  - three-step model (phases), 218–219, 218f
  - work gloves example, 220
- Charter, 229
- Cisco Systems
  - corporate strategy, 96
  - diversification and acquisition strategy, 95–96, 98
  - speed of integration, 110
  - use of corporate venture capital, 103
- Coke
  - convenience of, 80–81
  - local responsiveness of, 158
- Compensation and incentives, 235–236
  - pay gaps, 236
- Competition
  - forces shaping, 20
  - globalization response to, 154
  - international, 158–164
  - vs “local champion” (globalization issue), 157
  - “perfect,” 203–205
  - stopping, 103
  - See also Competitive strategy; Hypercompetition; Innovative strategies/changing competition; Rivalry
- Competitive advantage, 3–4, 205–207
  - and accelerating innovation, 184
  - attributes, 48
  - capabilities as “how,” 45–46
  - creating buyer switching costs, 206
  - definition, 2
  - intangible assets, 207
  - and market share, 66
  - measurement of, 3–4
  - network effects, 206
  - preempting rare resources, 206
  - resources as “what,” 45
  - securing government sanctioned barriers, 206
  - sustainable, 52
    - example, 47–48
  - sustaining, 205–207
  - winning *in time vs over time*, 43
  - See also VRIO model of sustainability
- Competitive advantage pyramid tool, 52–55, 53f, 55t
  - data gathering, 53–54
- strength/weakness analysis, 55t
  - using, 54–55
- Competitive failure, definition, 51
- Competitive parity, definition, 51
- Competitive strategy
  - evaluating competition, 194–199
    - identify capabilities, 195
    - identify drives, 195
    - predict responses to moves, 195
    - use game theory for competitive response profile, 196–199
  - example (Delta Airlines), 189–190
  - for market environment/s, 201–205
    - dynamic environments, 205
    - monopoly, 201–202
    - oligopoly, 202–203
    - “perfect” competition, 203–205
  - principles, 200–201
    - bring strength against weakness, 200
    - develop inimitable strategies, 201
    - know your strengths/weaknesses, 200
    - protect/neutralize vulnerabilities, 200–201
  - sustaining competitive advantage, 205–207
  - understanding competitive landscape, 190–194
    - mobility barriers, 192
    - strategic groups, 190–192
    - strategy canvas, 192–194, 192f
- Competitor, 247
- Competitor response profile, 194f
  - definition, 194
  - See also Competitive strategy/evaluating competition
- Complementary assets, alliances for access, 165–166
- Complementary products/services, definition, 32
- Complementor, 247
- Concentrated industry, definition, 22
- Conglomerates, 97, 102
  - General Electric example, 102
- Consumer perception, and product differentiation, 77
- Consumption chain
  - mapping, 85–88
    - consumers finding product, 86
    - customer awareness of need for product/services, 86
    - factor/s for final selection, 86
    - ordering/purchase process, 86–87
    - product repair/disposal, 88
    - product storage, 87
    - providing customer assistance, 87
    - return/exchange function, 88
- Contractual (nonequity) alliance, 134
- Control (third C of vertical integration), 121–122
- Convenience of a product for differentiation, 80–82
- Cooperative strategy, 132
- Coordination (second C of vertical integration), 119
  - interdependence types
    - modular, 120
    - reciprocal, 120–121
    - sequential, 120
- Core competencies (shared knowledge), 99–100
- Corporate ethics, 236–240
  - caring for and avoiding harm to individuals, 237
  - concern about fairness, 237
  - praise of liberty, 237
- Corporate governance, 229
- Corporate raiders, 234
- Corporate Social Responsibility (CSR), 250–251, 250f
  - definition, 249
  - and firm performance, 251–252
- Corporate strategy, 96
  - vs business unit strategy, 96–97
  - definition, 10
  - example in social value organization, 249
- Corporate strategy and alliances, 249
- Corporate venture capital (CVC), 103
- Corporation/s
  - definition, 229
  - ethics
    - and corporate culture, 238–239
    - creating ethical climate, 239–240
    - Credo example, 240
    - dimensions, 240
    - ethical orientations, 237
    - Facebook privacy example, 239
  - governance, 229
    - agency problem, 233–234, 234f
    - board of directors, 234–235
    - compensation and incentives, 235–236
    - differences in between economic and social-value organizations, 249
  - purpose/history, 229–233
    - shareholder primacy model, 230–231
    - stakeholder model, 231–232
- Cost advantages, 26
  - Aldi example, 58–59
  - business model and/or value chain changes, 71–72
  - definition, 6
  - vs differentiation advantage, 59
  - sources
    - different business model, 60t
    - economies of scale/scope, 60–64, 60t
    - input costs, 60t, 70–71
    - learning and experience, 60t, 64–69
    - proprietary knowledge, 60t, 69
    - sources, 59, 60t
    - strategy (definition), 64
- Cost leadership, differentiation, and innovative strategies, 248
- Cost-management strategy, use of scale and experience curves, 68
- Cost synergies, 68–69
- Covid-19
  - and industry profitability, 31
  - Pret a Manger, response to, 221
  - and 7 S model of alignment, 218
  - strategy vehicles, 10
  - Uber diversification strategy, 100–111
  - vaccine development, 132, 251
- Covid-19 vaccine, 132, 251
- Creativity skills, 183
- Credo, and Johnson & Johnson, 239, 240
- Cross-sell strategy, 182
- Crowd creating, 125
- Crowd innovation, 125
- Crowdsourcing. See Crowd voting
- Crowdsourcing, 125
  - and crowd/tasking/voting/creating/innovation, 125
  - definition, 125
  - outsourcing via, 125

Crowd tasking, 125  
 Crowd voting, 125  
 Cultural arbitrage, definition, 162  
 Cultural distance  
   definition, 156  
   and international expansion, 156  
 Culture, 238  
   definition, 238  
   and ethics in corporation, 238–239  
   recognition as sacred, 237  
 Cumulative advantage, 207  
 Currency  
   exchange rates, 32  
   fluctuation as international expansion risk,  
     155, 155f  
 Customers, 247  
   globalization response to, 154  
   as net promoters, 91  
 Customer segmentation, 82–84, 85t  
   based on demographics/customer attributes,  
     83–84, 85t  
   based on demographics/job to be done, 84,  
     85t  
   based on product attributes, 83, 85t  
   customer segments (definition), 183  
   definition, 83  
 Customer segments, 3, 6, 83, 175, 183

**D**

Decision-making tools. *See* Scale and  
   experience curves/decision making tools  
 Deliberate strategy, definition, 12  
 Dell  
   vs ASUS vertical integration approach, 116  
   company growth, 115  
   mass customization innovation strategy  
     example, 180  
   outsourcing strategy, 115–116, 125–126  
 Demand conditions, 160  
 Demand growth, and rivalry, 22–23  
 Demographic forces, 33  
 Demographics/customer attributes, 83–84, 85t  
 Differentiation strategy, 6  
   Amazon example, 205  
   vs cost advantage strategy, 59  
   Facebook example, 76–77  
   product differentiation sources, 82–88  
     customer segmentation, 82–84  
     mapping the consumption chain, 85–88  
   and value, 48

   “Dark World of,” 162  
   early strength, 44  
   example of internal abilities of a firm, 42–43  
   managing complexity, 50  
   nonequity alliance with McDonald’s, 134  
   and Pixar  
     response to competitive threat, 52  
     value created in alliance, 137  
   strategic alliance with Oriental Lands  
     Company, 130–131, 132  
   synergy of adjacent markets, 99

value created by Mickey Mouse, 48  
 vertical integration example, 118  
 Disruptive innovation  
   definition, 175  
   Internet as “disruptive” technology, 177–178  
 Distribution agreements, 134  
 Diversification/horizontal diversification, 96  
   creating value, 97  
   eight Ss mechanism, 99–103  
   exploit/expand resources and capabilities,  
     98, 98f  
   destroying value pitfalls, 104–105  
   hubris, 104  
   imitation, 104  
   lack of resources, 105  
   poor governance and incentives, 104  
   poor management, 104–105  
   sunk cost fallacy, 104  
   levels of diversification, 97  
   methods, 105–106, 106t  
   performance levels and, 97  
   strategies continuum, 97  
 Dominant business, definition, 97  
 Dominant logic  
   definition, 100  
   examples, 100–102  
   of innovative strategy, 176  
 Dominant strategy (from game theory),  
   definition, 197  
 Dominant vertical business, definition, 97  
 Downstream activities, 117  
 Drilling technologies, in Saudi Arabia, 71  
 Due diligence, definition, 107  
 Dynamic capabilities, definition, 46

**E**

Economic arbitrage, definition, 162  
 Economic conditions, 32–33  
 Economic distance  
   definition, 157  
   and globalization issues, 157–158  
   Unilever example, 158  
 Economic growth, 32–33  
 Economic responsibility, 250  
 Economic value, 245–246  
 Economies of scale  
   airline industry example, 63  
   definition, 60  
   evaluation of (scale curve), 62–64  
   and globalization, 153  
   machine/equipment specialization, 61  
   spread fixed cost of production, 60–61  
   spread nonproduction costs, 61  
   standardization, 159  
   task/employee specialization, 61–62  
   *See also* Diseconomies of scale

**V**

Vaccine development, Covid-19, 251  
 Value chain, 43–45, 44f  
 definition, 43, 71, 117  
 gasoline example, 117, 117f  
 reconfiguration (disintermediation)  
 innovative strategy, 176–177, 176f  
 reconfiguration for mass customization,  
 179–180  
 upstream/downstream activities, 117  
 and vertical integration/specialization, 117  
 Value net model, 246–248, 247f  
 Value proposition. *See* Unique value

Values  
 as an attribute of competitive advantage, 48  
 creation through alliances, 137–139  
 alliance-specific (new) resources, 138  
 combine unique resources, 137–138  
 lower transaction costs, 139  
 pool similar resources, 138  
 economic, 245–246  
 Pixar example, 47  
 and priorities, 47  
 shared, 245  
 social, 245–246  
 Vertical alliance, 135–137  
 Bose example, 136  
 definition, 135  
 Vertical integration, 11, 117  
 ASUS example, 116  
 danger of/two Fs, 122  
 loss of flexibility, 122–123  
 loss of focus, 123–124  
 definition, 96  
 three Cs of, 118, 118t  
 capabilities, 118–119  
 control, 121–122  
 coordination, 119–121  
 Vertical specialization, 117  
 and marketplace discipline, 123–124  
 Nike example, 118  
 Virtuous circle, definition, 50  
 Visa, learning alliance, 137–138  
 Vision  
 communicating, 220  
 creating, 220  
 definition, 220  
 VRIO model of sustainability  
 to assess competitive advantage, 51–52, 51f  
 characteristics  
 inimitability, 48–50  
 organization’s ability to exploit resources,  
 48, 51  
 rarity, 48  
 value, 48
