

# Subject Index

Note: “n” after a page reference number refers to a note on that page.

- aboriginal children’s drawings, 269, 270
- abstract expression, 37–8, 40, 42–3, 45, 46, 56–7, 62, 80, 130
- abuse, 206
  - environmental, 52
  - physical, 203
  - see also* sex abuse
- African children’s drawings, 248–50, 262–3, 265, 267, 269
- air-view plan, 13, 15, 17
- ambiguous figures, 144
- appearance/reality task, 144, 147
- appetitive response in drawing, 196–9
- art clubs, 323
- Attention Deficit Hyperactive Disorder, 87–8
- autistic spectrum disorder,
  - drawings, 75–85, 325–6,
  - false belief/photo tasks, 148
  - theory of mind, 147
- babies’ understanding of language, 96
- babies’ understanding of pictures, 130–3, 136–7, 150–1
- baby biographies, 9
- behavioral mastery, 155, 157, 174
- bereaved children, 191, 203
- bereavement in drawing, 80
- blind children, 89–92, 324
- brain
  - false belief/photo/sign tasks, 148–9
  - language, 128
  - lateralization, 77–8
  - modularization, 154–5
  - plasticity, 92
  - spatial information, 90, 92
- British Ability Scales, 183
- cave art, 7–8, 325
  - relationship with child art, 6–8
- Chinese art education, 66n, 251–5, 266, 275, 276–81, 310, 317
- Chinese children’s drawings, 58–9, 60–1, 252–5, 261, 265–6, 275, 276–81, 318

- clinical use of drawings *see*  
 drawings as assessment tools
- clumsy children *see* Developmental  
 Coordination Disorder
- color  
 measurement scale, 52, 53  
 in pictures, 8, 37–8, 40, 43, 99,  
 104, 130, 194, 203–5, 212,  
 267, 280, 282, 283, 288  
 preference of, 204–5  
 recall of, 231–5, 239, 242  
 teaching of, 295, 297, 299, 301  
 understanding of, 119, 130,  
 326
- content expression, 37–9, 40, 42–3,  
 45, 46, 52, 53, 63
- copying *see also* graphic models  
 children's request for, 304, 310  
 in Chinese art education, 251–2,  
 254, 256, 261, 266, 275–6,  
 278, 279, 280, 281  
 expressive drawings, 38  
 geometric patterns, 38, 85–6,  
 87, 319  
 in Montessori children, 282  
 representational pictures, 61,  
 251, 256, 258, 273, 275, 297,  
 319, 310  
 from teachers'/parents'/children's  
 pictures, 260, 295, 297–9,  
 300, 301, 324
- court of law, 219, 240, 246–7n
- Croatian children's drawings,  
 201–3
- cultural influences on drawing,  
 247–71, 314–15, 318  
 art culture and art education, 61,  
 250–5  
 commonalities/differences, 270,  
 271, 314–15  
 drawing models, 257–61, 324  
 effect of schooling, 255–7
- environment, lifestyle and  
 cultural values, 261–8  
 historical, 248–50, 268–70
- decline of drawing activity, 125n,  
 291, 292, 295, 304–9, 322  
 children's perceptions of, 306–7  
 reasons for decline, 291, 307–8,  
 322–3  
 reasons given to arrest decline,  
 291, 308–9, 323  
 teachers'/parents' perceptions of  
 its existence, 305–6
- defense response in drawing,  
 196–200, 203, 212
- DeLoache's search tasks, 133–6,  
 140–3, 145
- Developmental Coordination  
 Disorder, 87–9
- developmental delay/difference in  
 drawings from atypical  
 populations, 67–74, 76–7,  
 80–1, 85–9, 93, 314
- diachronic thinking, 123
- divergent thinking, 64
- Down's syndrome, 70, 71–5, 76,  
 77
- Draw-a-Man test, 89, 117, 181,  
 182, 183, 184, 193, 207–9,  
 248
- drawing ability  
 children's estimations of their,  
 108, 110, 116–17  
 children's self-efficacy of their,  
 291, 293–5, 299, 308–10, 322  
 in relation to comprehension of  
 pictures, 95–126, 323–4  
 in relation to disturbance, 193,  
 327  
 in relation to IQ, 184  
 in relation to verbal recall of an  
 event, 184, 237–8

- drawing diaries, 312
- drawings as assessment tools,
  - 180–215
  - in clinical practice, 206–13, 221, 225, 227, 240, 327–8
- drawings as memory aids, 216–46, 328
  - cartoon draw-and-tell interview, 242–3
  - the case for drawing, 220–1
  - of emotional memories, 225–8, 229
  - false reminders in interviews, 234–5, 328
  - of generic/script knowledge, 225, 227, 228, 229–30, 233–4, 244
  - interactive draw-and-tell interview, 241–2
  - of item-recall tasks, 228–30
  - mechanisms of influence, 236–40
  - of routine events, 222, 224–5, 230, 235
  - of staged/naturally occurring events, 222–5, 229–30
  - of video information, 230–4, 241–2
- dual nature of pictures, 127–52, 256, 325–6
  - early understanding of, 130–3
  - flexibility of thought in, 144–6
  - relation to general
    - representational deficit, 146–50
  - representations of specific realities, 133–6
  - as symbols, 127–30
  - tasks testing for (debate of), 141–4
  - understanding the independence of pictures, 136–40
- Dutch children's drawings, 268–9
- education of drawing, 272–313
  - benefits of drawing, 311, 320–1
  - children's experience of drawing, 293–5
  - Chinese infant school curriculum, 276–80
  - Chinese vs. Western teaching, 280–1
  - curricula, 281, 289, 290, 311, 312, 317, 319, 321; *see also* National curriculum for art and design
  - difficulties teachers and parents experience, 291–2, 304
  - extra help children ask for, 291–2, 302, 304
  - help children receive, 291–2, 295–302
  - history of drawing education, 272–6
  - parents' attitudes and practices, 289–312
  - in relation to other subjects, 251, 319–21, 322, 323
  - teachers' attitudes and practices, 289–312
- Egyptian art, 194
- emotional disturbance, 189–94, 206, 211, 327
- emotional significance of the topic
  - size, 194–203, 263, 266, color, 203–6
  - placement, 201, 202, 203–6, 263
- enjoyment of drawing, 10, 121, 230, 291, 293–5, 299, 306, 322
- executive functions, 88, 149, 150
- expressionist movement in art, 7, 274–5
- expressive drawing, 36–66
  - autism, 78–81
  - Chinese, 58–9, 60–1, 254–5, 265–6, 279–81, 318

- expressive drawing (*cont'd*)  
 developmental patterns, 36, 43–5,  
 46–7, 49, 52, 55–60, 288, 315  
 evaluation criteria, 56–60, 315  
 expressive techniques, 37–8;  
 children's use of, 38–40  
 formal properties, 37, 39–40,  
 43, 46, 51–2, 56–7, 62, 285–7  
 individual differences, 61–5  
 mood differences, 45, 52, 53, 66n  
 relationship with representational  
 drawing, 63–5, 184, 315–17,  
 319  
 Steiner/Montessori, 255, 284–9  
 expressive vocabulary, 226–7, 243  
 eye-witness testimony, 4, 217, 223,  
 224, 225, 227, 233, 239, 240,  
 328
- false belief tasks, 146–50  
 false picture/photo tasks, 137–43,  
 144–5, 147–50, 326  
 false sign tasks, 148–9  
 false word tasks, 145, 147  
 Fodor's modular theory, 154  
 fold-out drawings, 13, 15, 17, 26,  
 102  
 flexibility of thought  
 about an entity in two ways,  
 143–6, 326  
 implicit to explicit internal  
 representations, 153–79,  
 326–7  
 Freeman's framework theory of  
 pictures, 176
- gender differences, 182, 244  
 geometric exercises, 85–6, 273–5,  
 280, 319  
 Goodenough and Goodenough-  
 Harris test *see* Draw-a-Man  
 test
- graphic inventions, 33, 35n, 92,  
 114, 251, 260–1, 270–1, 324  
 graphic models, 33, 114, 251, 256,  
 257–61, 268, 270–1, 301, 324  
 graphic skill *see* drawing ability
- habitual/natural drawing order,  
 169, 175–6  
 hearing impairment, 148  
 House-Tree-Person Test, 206, 207,  
 208
- imaginative drawing, 83, 274–5,  
 278–9, 280, 282, 283, 288–9  
 independence of pictures to  
 referents, 133, 136–40, 142,  
 143, 149  
 inhibitory control, 144  
 intelligence, 68, 181–4, 187, 188,  
 206, 210, 211, 248  
 internal/mental model, 14, 17, 18,  
 32, 33, 101–2, 103, 114, 153  
 internal representations, 33,  
 153–79, 326–7  
 Israeli children's drawings, 267–8
- Japanese children's drawings,  
 258–61, 266–7
- Kinetic Family Drawing Test, 194,  
 200, 203, 206, 207, 208  
 Koppitz test, 190–3, 207–9
- learning difficulties, 33, 68–71, 72,  
 77, 78, 79, 82, 83, 85, 87  
 clinicians working with children,  
 207–9  
 legal use of drawings, 217, 241,  
 245, 328  
*see also* court of law, drawings  
 as memory aids, eye-witness  
 testimony

- literal expression, 37, 38, 39, 40, 42, 45, 46, 52, 61, 63, 64, 80, 254, 287
- Lowenfeld's importance hypothesis, 194, 196
- Luquet's stage account of drawing, 9–19  
 evaluation of, 19–22  
 stages: failed realism, 11–13, 125n; fortuitous realism, 10–11, 30; intellectual realism, 13–17, 19, 20, 27–8, 35n, 76, 99, 153, 228; visual realism, 10, 17–19, 20, 27–8, 32, 33, 35n, 76, 99
- Machover Draw-a-Person test, 184–5, 187–9, 206, 207, 208
- Manga drawings, 258–61, 266–7
- manual exploration of pictures, 132–3, 136
- media influences, 257, 258, 269–70, 289, 290, 291, 295, 302, 303, 309, 308, 311
- metaphorical expression, 38, 62, 63
- memory, 216–17  
 deficits in, 71  
 development of, 217–18  
 drawing from, 76, 275, 280, 319  
 external help for retrieval, 218–20  
 influences on drawing, 32, 33, 61–5, 96, 138, 176, 177  
 photographic, 76  
*see also* drawings as memory aids
- methodological issues  
 in comparing production and comprehension, 103–6  
 in studying children's drawings, 312, 317–19
- Modernist art, 8, 57–8, 59, 60
- Montessori  
 children's drawings, 255, 281–9  
 educational approach, 255, 281–3, 284, 310, 312
- moving word task, 145
- Naglieri Draw-a-Person, 182, 183, 184, 237
- National curriculum for art and design (England and Wales), 51, 275, 281–9, 291–2
- National identity, 266–8
- observational drawing, 251, 255, 274, 275, 282–4, 288, 297, 302, 319
- observational skills, 296, 297, 311, 320
- observational studies, 142, 247, 312, 318
- occlusion (partial/full), 17, 19–20, 21, 27, 32, 63, 72, 73, 74, 92, 107, 257, 261, 283
- Papua New Guinea children's drawings, 256–7
- parents, 114, 125n, 131, 185–6, 212, 213, 226, 227–8, 239, 258, 260, 276, 321, 322, 323  
*see also* education of drawing
- perception theories, 22, 33
- personality, 184–9, 190, 194, 206, 210, 211, 327
- perspective drawings, 17, 19, 21, 23–4, 26, 27, 75–6, 92, 102, 104, 257
- mixed, 14, 16, 26
- teaching on, 257, 299
- Piaget's constructionist theory, 154
- prehistoric art, 6–8, 34  
*see also* cave art

- procedural rigidity, 155, 159,  
162, 163–4, 175, 177,  
326–7
- Relationship with  
representational change,  
164–74
- production and comprehension  
of drawing (relationship of),  
95–126, 323–5
- proportion, 12, 21, 63, 69, 89,  
104, 106–7, 113, 174, 181,  
182, 212, 267, 283
- teaching on, 299
- realism  
in pictures, 2, 7, 9, 33, 64, 68,  
75–8, 84, 90, 98, 113, 253,  
267–8, 284, 287, 316
- understanding of, 57, 99, 108,  
110–14, 116, 117, 132–3,  
323, 325
- see also* Luquet's stage  
account of drawing, Willats'  
representational drawing  
systems
- realist errors, 147, 149–50
- recapitulation theory, 35n
- recognition of subject matter, 97,  
117, 131–2, 134, 144
- representational deficit, 146–50
- representational drawing, 6–35,  
95–126, 153, 174, 248, 314
- affective responses to, 98,  
105–14, 323
- children's understanding of  
developmental change, 121–3,  
323–5
- children's understanding of  
developmental sequence,  
117–20, 323–5
- cognitive responses to, 98,  
105–14, 323
- quality in relation to an effective  
memory cue, 223, 237–8, 243
- relationship with expressive  
drawing, 63–5, 184, 315–17
- relationship with symbolic  
understanding, 256, 325–6
- teaching of, 273–4, 280
- representational redescription (RR)  
theory, 21, 33, 153–179,  
326–7
- representations of specific realities,  
133–6
- Romantic artists, 8, 37
- school achievement, 263–6
- separation of details, 13, 15, 17
- sex abuse, 203, 225, 250
- scribblers/scribbling, 7, 10, 11, 21,  
30–2, 98, 100, 105, 106, 107,  
108, 110, 111, 112, 119–20,  
256, 257, 276–8, 314
- script/generic knowledge, 225, 227,  
228, 229–30, 231, 233, 244,  
245
- size  
in pictures, 43, 62, 106, 129,  
157, 158, 159, 174, 185,  
194–203, 205, 212, 263, 266,  
327
- measurement scale, 66n
- recall of, 239
- understanding of, 196–8
- spatial relationships, 13, 22, 23,  
25, 27, 28, 29, 69, 72, 73, 74,  
75, 76, 87, 93n
- special populations, 67–94, 314
- social aspects in drawings, 39, 78,  
81–3, 87, 194
- social influences  
on drawing, 31–2, 83, 307, 322  
on understanding pictures, 133
- Stanford-Binet test, 183

- Steiner children's drawings
  - children's drawings, 204–5, 255, 283–9, 312
  - educational approach, 255, 281–9, 312
- story-telling, 236
- suppression of details, 17
- Swedish children's drawings, 262–3
- symbols
  - dual nature of, 129–30, 144–6, 256
  - variety of, 127–8, 146
- synthetic incapacity, 12–13
- tadpole human figure drawings/
  - drawers, 12, 25, 28–9, 32, 100, 105, 106, 114, 115, 169, 174
- teachers, 9, 69, 71, 114, 125n, 185, 195, 239, 251, 254, 260, 262, 268, 276, 280, 320, 321, 322, 323
  - see also* education of drawing
- temperament, 226–7, 243
- theory of mind, 147, 150, 156
- threading of line, 26, 32
- time children spend drawing, 291, 293–5, 305, 322
- transitional figure, 100, 257
- transparency drawings, 13, 15, 16, 17, 106
- visual metaphor comprehension
  - 61–4
- war drawings, 200–3, 267–8
- weak central coherence theory, 84
- Wechsler Intelligence Scale for Children-Revised, 183
- Western art education, 251, 253–4, 268, 272–5, 280–1
- Willats' representational drawing systems, 22–7
  - evaluation of, 27–30
- Williams syndrome, 85–7
