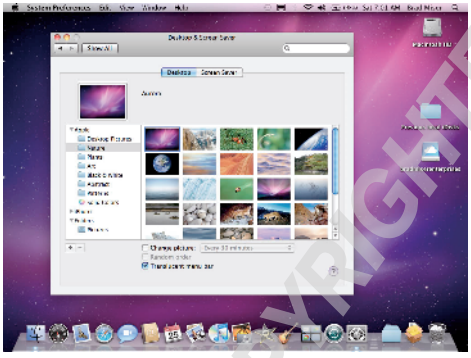
Contents

chapter 1

How Can I Use My Desktop Space Efficiently? 2



Maximizing Desktop Space 4
- Configuring the MacBook's display 4
- Adding an external display 5
- Using a projector 9

Setting Desktop Preferences 10
- Setting Finder desktop icon preferences 11
- Configuring desktop pictures 11

Working with the Dock 14
- Configuring and using Dock icons 16
- Configuring appearance and behavior 19

Working with the Sidebar and Toolbar 20
- Using and configuring the sidebar 20
- Using and configuring the toolbar 22

Working with Exposé 24
- Hiding all open windows 24
- Showing thumbnails of open windows 25
- Showing thumbnails of an application's open windows 26
- Configuring Exposé keyboard shortcuts 27

Working with Spaces 28
- Creating Spaces 28
- Using Spaces 31

Working with the Dashboard 33
- Setting the Dashboard keyboard shortcut and hot corner 34
- Configuring the Dashboard 35
- Configuring widgets 37
- Installing more widgets 37
- Creating your own Web widgets 39

COPYRIGHTED MATERIAL

chapter 2

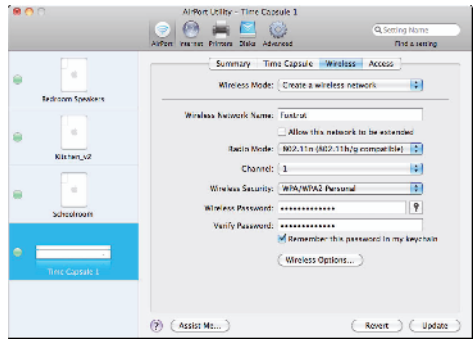
How Do I Manage User Accounts? 42

Working with User Accounts 44
- Creating Administrator or Standard user accounts 45
- Limiting access with Parental Controls 49
  - Restricting system resources 51
  - Restricting content 52
  - Limiting email and chats 53
  - Setting time limits 54
- Setting Login Items for a user account 56
- Creating Sharing Only user accounts 57
- Creating Group user accounts 57
- Changing accounts 58
- Deleting accounts 59

Using Automatic Login 59
Configuring the Login Window 60
Working with Fast User Switching 61
Working with the Root User Account 62

chapter 3

What Are My Internet Connection Options? 66



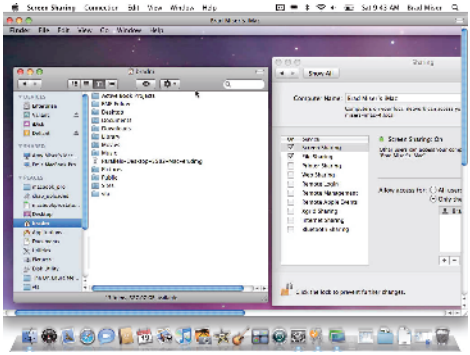
Setting Up a Local Network with Internet Access 68
- Installing and configuring an AirPort Extreme Base Station or Time Capsule 68
- Building a local network 75

Connecting via a Wireless Network 75
Connecting via an Ethernet Connection 79
Connecting via a Wireless Broadband Card 81
Connecting via iPhone Tethering 83
Managing Multiple Network Connections 84
- Configuring network connections 84
- Using locations to manage network connections 85

Troubleshooting an Internet Connection 88
- Solving a network problem 89
- Solving a MacBook problem 91
- Finding help for problems 92

chapter 4

What Can I Do on a Local Network? 94



Sharing Files 96
- Sharing your files with others 96
  - Configuring Sharing user accounts 96
  - Configuring file sharing 97
  - Setting sharing permissions for folders and files from the Finder 100
- Accessing files shared with you 101
  - Using the sidebar to access shared files 102
  - Accessing shared files using a URL 103
- Sharing files with Windows PCs 105
  - Sharing files on a MacBook with Windows PCs 105
  - Accessing files from a Windows PC 106
  - Sharing files on a Windows PC 107
  - Accessing files shared on a Windows PC using a Mac 108

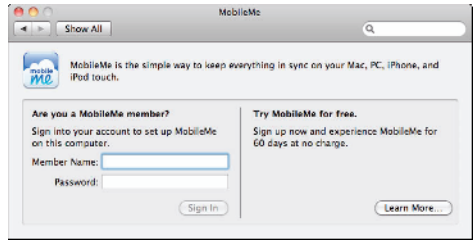
Sharing Screens 109
- Sharing your MacBook with other Macs 109
- Sharing another Mac on a local network 111

Sharing Printers 114
- Sharing USB printers connected to a base station 114
- Sharing printers connected to a Mac 115

Sharing an Internet Connection 115

chapter 5

How Do I Take Advantage of MobileMe? 118



Obtaining a MobileMe Account 120
- Configuring a MobileMe account 121
- Logging in to your MobileMe Web site 122

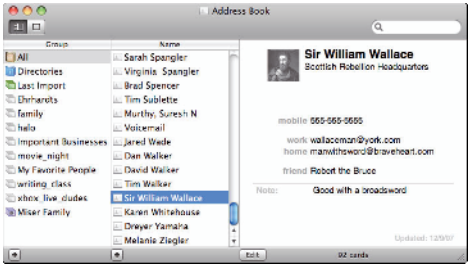
Working with iDisks 124
- Configuring and managing your iDisk 124
- Using your iDisk 126
- Sharing files on your iDisk 128

Synchronizing Data 133

Using MobileMe Web Applications 136
- Using the MobileMe email application 136
- Using the MobileMe Contacts application 140
- Using the MobileMe Calendar application 141
- Using the MobileMe Gallery application 142
- Using MobileMe to host a Web site 142

chapter 6

How Can I Manage Contact Information? 144



Adding Contact Information to Address Book 146
- Configuring the card template 146
- Creating a contact manually 147
- Importing vCards 150
- Adding contact information from email 150
- Editing cards 150

Working with Cards 151
- Browsing for cards 151
  - Setting format and sort preferences 151
  - Browsing for cards with three panes 152
  - Browsing for cards with one pane 153
- Searching for cards 153

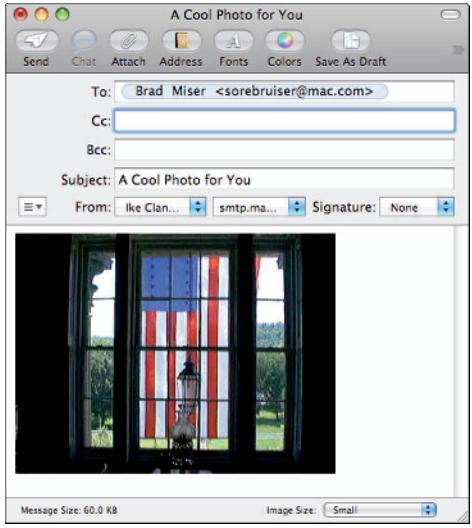
Organizing Cards with Groups 154
- Creating groups manually 155
- Creating Smart Groups 156
- Changing groups 157

Synchronizing Contact Information with an iPhone or iPod Touch 158
- Synchronizing via iTunes 158
- Synchronizing via MobileMe 159

Printing from Address Book 160

chapter 7

How Can I Go Beyond Email Basics with Mail? 164



Configuring Email Accounts 166
- Configuring a MobileMe email account 167
- Configuring a POP email account 171
- Configuring an IMAP account 172
- Configuring an Exchange account 173
- Testing email accounts 175

Working with File Attachments 176
- Sending compressed files through email 176
- Preparing attachments for Windows users 178
- Working with files you receive 178

Organizing Email 180
- Using mailboxes 180
- Using Smart Mailboxes 182
- Using Smart Mailbox folders 183

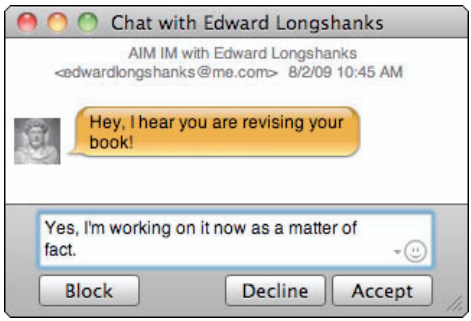
Using the Junk Mail Tool in Mail 184

Automatically Managing Email with Rules 186

Working with RSS Feeds 188
- Adding RSS feeds to Mail 189
- Reading RSS feeds 189
- Configuring RSS preferences 190

chapter 8

How Can I Communicate with iChat? 192



Configuring iChat 194
- Creating and configuring accounts 194
- Setting General preferences 197
- Setting Messages preferences 198
- Setting Alerts preferences 199
- Setting Audio/Video preferences 200

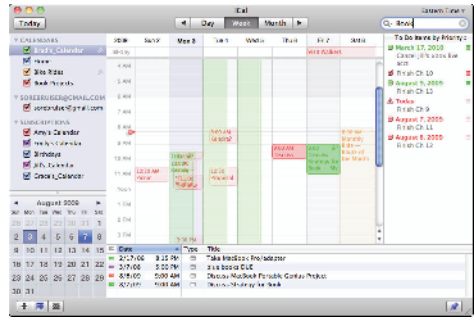
Working with Buddies 200
- Adding chat buddies 202
  - Creating a buddy in iChat 202
  - Adding someone from your Address Book as a buddy 203

Chatting with Text 203
Chatting with Audio 206
Chatting with Video 207
Sharing Desktops During a Chat 210
- Accessing a desktop being shared with you 210
- Sharing your desktop with someone else 211

Sharing a Document During a Chat 212
Chatting On 213

chapter 9

How Can I Manage My Calendars? 214



Setting Up iCal 216
- Configuring iCal preferences 216
- Creating calendars in iCal 220
- Adding events to calendars 221
- Creating and completing to-do items 224
- Managing to-do items 225

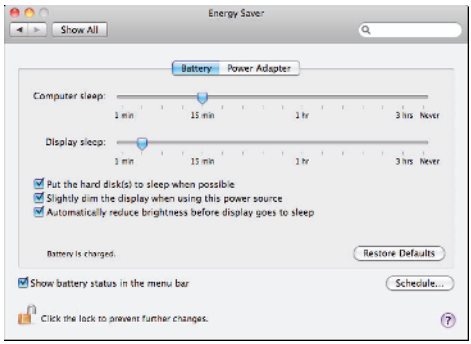
Managing Calendars, Events, and To-Do Items 226
Printing Calendars 228
Sharing Calendars 229
- Sharing calendars via MobileMe 230
- Sharing calendars with non-iCal users 231

Subscribing to Calendars 233
- Subscribing to shared calendars 233
- Subscribing to public calendars 234

Moving iCal Calendars onto an iPhone 234

chapter 10

How Can I Make Sure I Don't Run Out of Battery Power? 236

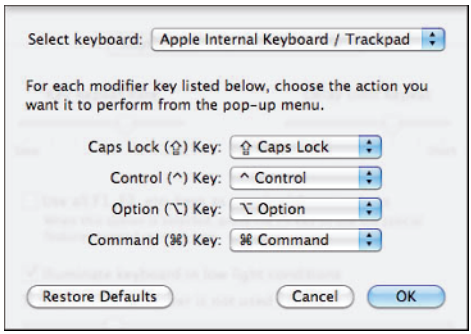


Monitoring Battery Status 238
Making the Battery Last Longer 239
- Using the Energy Saver 239
- Adopting low energy habits 243

Powering Your MacBook while Traveling 244

chapter 11

How Can I Control My MacBook More Effectively? 246

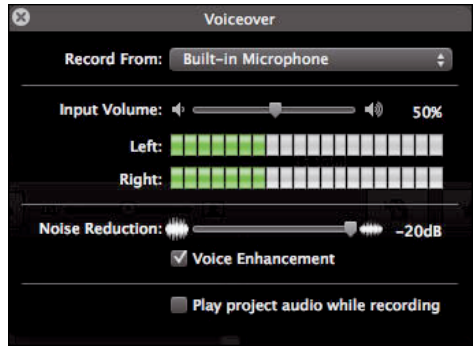


Using the Trackpad Effectively 248
Using the Keyboard Effectively 250
- Configuring the keyboard 250
- Configuring language settings and the Input menu 251
- Using keyboard tricks 255
- Controlling your MacBook with function keys 255
- Controlling your MacBook with default keyboard shortcuts 256
- Configuring keyboard shortcuts 257
- Creating your own application keyboard shortcuts 257
- Navigating with the keyboard 258
- Using the Input menu 260
- Using the Character Viewer 260
- Using the Keyboard Viewer 262

Configuring Bluetooth on a MacBook 262
Adding a Bluetooth Mouse 264
Adding a Bluetooth Keyboard 266

chapter 12

How Do I Make Better Use of My MacBook's Audio? 268



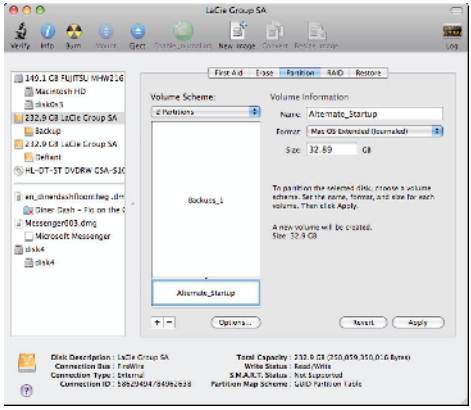
Getting Sound Out of a MacBook 270
- Understanding sound output options 270
- Using external speakers 270
- Connecting an analog speaker system 271
- Connecting a digital speaker system 271
- Controlling sound output 272

Working with Sound Effects 274
- Configuring sound effects 274

Using your own alert sounds 275
Creating an alert sound 276
Adding an alert sound for a specific user 278
Adding an alert sound for all users 278
Getting Sound into a MacBook 279
Recording sound with the MacBook's internal microphone 279
Configuring the internal microphone 280
Recording sound with the internal microphone in iMovie 281
Recording sound with a USB headset 281
Recording sound with a video camera 283
Recording sound from external microphones and musical instruments 283
Recording sound with an iPhone 284

chapter 13

How Do I Store and Maintain My Data? 286



Using External Hard Drives 288
Installing an external hard drive 289
Using Disk Utility to prepare an external hard drive 290
Working with external hard drives 294
Maintaining Hard Drives 295
Managing a hard drive's free space 295
Using Activity Monitor to check a drive's available space 296
Using Disk Utility to check or repair an external drive 297
Erasing an external hard drive with Disk Utility 299
Using Disk Utility to check or repair the internal drive 302
Using an iPod as an External Drive 302
Configuring an iPod Classic as a drive 303
Configuring an iPod shuffle as a drive 303
Working with an iPod as a hard drive 304
Working with Flash Drives 305

chapter 14

How Can I Protect My MacBook? 306

Keeping Software Current 308
Keeping Apple software current 308
Updating Apple software manually 308
Updating Apple software automatically 310
Viewing installed updates 311
Keeping non-Apple software current 311
Updating Microsoft Office applications manually 312
Updating Snapz Pro X automatically 313

Preventing Internet Attacks 314
Using a base station to shield your MacBook 314
Using the Mac OS X firewall to shield your MacBook 315
Protecting MacBook with General Security 316
Protecting Data with Time Machine 318
Preparing a backup drive 319
Backing up with Time Machine 320
Restoring files with Time Machine 323
Restoring files in the Finder 324
Restoring files in applications 325
Protecting Data with Encryption 327
Protecting Information with Keychains 329
Viewing and configuring your keychains 330
Adding items to a keychain 332
Working with keychains 333

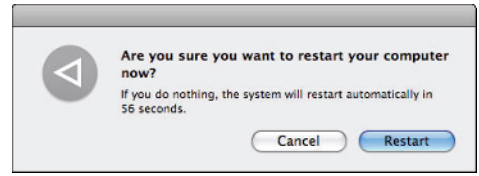
chapter 15

How Can I Run Windows Applications? 336

Choosing a Windows Option 338
Using Boot Camp to Run Windows 339
Configuring Boot Camp and installing Windows 339
Running Windows using Boot Camp 342
Running Windows Virtually 344
Installing Parallels Desktop for Mac 344
Configuring Parallels Desktop for Mac 345
Running Windows under Parallels Desktop for Mac 348

chapter 16

How Do I Solve MacBook Problems? 350



Looking for Trouble 352
Understanding and Describing Problems 356
Recognizing user errors 356
Recognizing software problems 356
Recognizing hardware problems 358
Describing problems 359
Trying Fast and Easy Solutions 360
Forcing applications to quit 360
Forcing the Finder to relaunch 361
Restarting 362
Shutting down soft 362
Shutting down hard 363
Logging in under a troubleshooting user account 363
Repairing external hard drives 365
Repairing the internal hard drive 365
Repairing permissions 366
Reinstalling applications 366
Starting up from an alternate startup external drive 368
Starting up from the Mac OS X installation disc 369
Getting Help with MacBook Problems 369
Getting help from the Mac Help system 369
Describing a problem in detail 371
Profiling a MacBook 371
Monitoring a MacBook's activity 372
Capturing screenshots 373
Getting help from others 375
Trying Harder or More Expensive Solutions 376
Reinstalling Mac OS X 376
Melting and repouring 377

Index 380
