

Contents at a Glance

Introduction	1
Part 1: Getting Started with Ham Radio	5
CHAPTER 1: Getting Acquainted with Ham Radio	7
CHAPTER 2: Getting a Handle on Ham Radio Technology	21
CHAPTER 3: Finding Other Hams: Your Support Group	35
Part 2: Wading through the Licensing Process	63
CHAPTER 4: Understanding the Licensing System	65
CHAPTER 5: Preparing for Your License Exam	77
CHAPTER 6: Taking the Exam	85
CHAPTER 7: Obtaining Your License and Call Sign	95
Part 3: Hamming It Up	105
CHAPTER 8: Receiving Signals	107
CHAPTER 9: Basic Operating	133
CHAPTER 10: Public Service Operating	185
CHAPTER 11: Operating Specialties	209
Part 4: Building and Operating a Station That Works	263
CHAPTER 12: Getting on the Air	265
CHAPTER 13: Organizing a Home Station	307
CHAPTER 14: Computers in Your Ham Station	323
CHAPTER 15: Operating Away from Home	341
CHAPTER 16: Hands-On Radio	359
Part 5: The Part of Tens	385
CHAPTER 17: Ham Radio Jargon — Say What?	387
CHAPTER 18: Technical Fundamentals	395
CHAPTER 19: Tips for Masters	405
Index	409

Table of Contents

INTRODUCTION	1
About This Book	1
My Assumptions about You	2
Icons Used in This Book	3
Beyond the Book	3
Where to Go from Here	4
PART 1: GETTING STARTED WITH HAM RADIO	5
CHAPTER 1: Getting Acquainted with Ham Radio	7
Exploring Ham Radio around the World	8
Tuning into Ham Radio	9
Using electronics and technology	10
Joining the ham radio community	12
Radiosport — Competing with Ham Radio	15
Communicating through Ham Radio Contacts	16
Ragchews	17
Nets	17
Citizen Science and HamSCI	18
CHAPTER 2: Getting a Handle on Ham Radio Technology	21
Getting to Know Basic Ham Radio Gear	21
Building a Basic Ham Radio Station	23
Basic stations	23
Communication Technologies	26
Understanding the Fundamentals of Radio Waves	28
Frequency and wavelength	29
The radio spectrum	30
Dealing with Mother Nature	32
Experiencing nature affecting radio waves	32
Overcoming radio noise	33
CHAPTER 3: Finding Other Hams: Your Support Group	35
Finding and Being a Mentor	36
Interacting in Online Communities	37
Social media and blogs	37
Videos, podcasts, and webinars	38
Email reflectors	39
Online training and instruction	40
Web portals	41

Joining Radio Clubs	41
Finding and choosing a club	42
Participating in meetings	44
Getting more involved	45
Exploring the ARRL	46
ARRL benefits to you	47
ARRL benefits to the hobby	48
ARRL benefits to the public	49
Taking Part in Specialty Groups.	50
On the Air — IOTA, SOTA, and POTA	50
Young Hams — YOTA	51
Competitive clubs	51
Handiham	52
AMSAT	53
TAPR	54
YLRL	55
QRP clubs	56
Attending Hamfests and Conventions	57
Finding and preparing for hamfests	57
Buying equipment at hamfests	58
Finding conventions and conferences	59

PART 2: WADING THROUGH THE LICENSING PROCESS

CHAPTER 4: Understanding the Licensing System	65
Getting Acquainted with the Amateur Service	66
FCC rules	66
Ham radio frequency allocations	67
Learning about Types of Licenses	69
Technician class	70
General class	70
Amateur Extra class	70
Grandfathered classes	71
Getting Licensed	72
Studying the exam questions	72
Taking your license exam	72
Volunteer examiner coordinators	73
Volunteer examiners	73
Receiving Your New Call Sign	74
Call-sign prefixes and suffixes	74
Class and call sign	75

CHAPTER 5:	Preparing for Your License Exam	77
	Getting a Grip on the Technician Exam	77
	Finding Study Resources	78
	Licensing classes	79
	Books, websites, and videos	80
	Online practice exams	82
	Locating Your Mentor	82
CHAPTER 6:	Taking the Exam	85
	Types of Exams	86
	Public in-person exams	86
	Remote exams	86
	Exams at events	87
	Exam sessions in homes and online	87
	Finding an Exam Session	88
	Registering with the Universal Licensing System (ULS)	88
	Getting to Exam Day	90
	What to have with you	91
	What to expect	91
	What to do after the exam	93
CHAPTER 7:	Obtaining Your License and Call Sign	95
	Completing Your Licensing Paperwork	95
	Finding Your Call Sign	98
	Searching the ULS database	98
	Searching other websites for call signs	99
	Printing your license	100
	Identifying with your new privileges	101
	Picking Your Own Call Sign	101
	Searching for available call signs	102
	Applying for a vanity call sign	103
	Maintaining Your License	104
	PART 3: HAMMING IT UP	105
CHAPTER 8:	Receiving Signals	107
	Learning by Listening	107
	Finding out where to listen	108
	Understanding how bands are organized	109
	Using Your Receiver	110
	Tuning and scanning with channels	112
	Continuous tuning with a knob	113
	Software-controlled tuning	114

Listening on VHF and UHF	115
Listening on HF	116
Using beacon networks and contact maps	118
Receiving Signals	121
Receiving FM voice	121
Receiving SSB voice	125
Receiving digital voice	127
Receiving digital or data modes	128
Receiving Morse code	131
CHAPTER 9: Basic Operating	133
Understanding Contacts (QSOs)	134
Common parts of contacts	135
Casual contacts	139
Nets and talk groups — On-the-air meetings	139
Contests and DXing — Radiosport	141
How contacts get started	142
Joining a contact	144
Failing to make contact	145
During a contact	147
Calling CQ	150
Casual Conversation — Ragchewing	152
Knowing where to chew	152
Identifying a ragchewer	154
Calling CQ for a ragchew	155
Making Repeater and Simplex Contacts	156
Understanding repeater basics	156
Making a repeater contact	160
Using access control	161
Miscellaneous repeater features	163
Maximizing your signal	164
Setting up your radio	164
Making a simplex contact	168
Digital Voice Systems	169
HF digital voice	170
VHF/UHF digital voice	170
Digital repeater networks	172
The DMR system	176
Casual Operating on HF	178
HF bands	178
Picking good times to operate	179
Contacts on CW and digital modes	181

CHAPTER 10: Public Service Operating	185
Joining a Public Service Group	186
Finding a public service group	186
Volunteering for ARES	188
Preparing for Emergencies and Disasters	189
Knowing who	189
Knowing where	190
Knowing what	190
Knowing how	192
Operating in Emergencies and Disasters	193
Reporting an accident or other incident	194
Making and responding to distress calls	195
Providing Public Service	197
Weather monitoring and SKYWARN	197
Parades and charity events	198
Participating in Nets	199
Checking in and out	200
Exchanging information	200
Tactical call signs	202
Radio discipline	202
Digital Message Networks	203
Winlink — email by radio	204
AREDN	206
NBEMS	207
CHAPTER 11: Operating Specialties	209
Getting Digital	210
Digital definitions	211
WSJT modes — fast and slow	212
FT8 and FT4	213
PSK31 and PSK63	216
Radioteletype (RTTY)	216
Non-WSJT MFSK modes	218
PACTOR, ARDOP, and VARA	219
Packet radio	220
APRS and tracking	220
DXing — Chasing Distant Stations	223
VHF/UHF DXing with a Technician license	223
HF DXing with a General license	227
Taking Part in Radio Contests	235
Choosing a contest	237
Operating in a contest	238

Chasing Awards	245
Finding awards and special events	245
Logging contacts for awards	246
Applying for awards	247
Mastering Morse Code (CW)	247
Learning Morse correctly	248
Copying the code	249
Pounding brass — sending Morse	250
Making code contacts	251
QRP (Low Power) and Portable Operating	251
Getting started with QRP	252
Portable operating	253
Direction-finding (ARDF)	256
Operating via Satellites	257
Getting grounded in satellite basics	257
Accessing satellites	258
Seeing Things: Image Communication	259
Slow-scan television	259
Fast-scan television	261

PART 4: BUILDING AND OPERATING A STATION THAT WORKS

CHAPTER 12: Getting on the Air	265
What Is a Station?	265
Planning Your Station	266
Deciding what you want to do	266
Deciding how to operate	267
Choosing a Radio	270
Allocating your resources	271
Software defined radios	272
Radios for VHF and UHF operating	273
Radios for HF operating	278
Filtering and noise	281
Choosing an Antenna	282
Beam antennas	283
VHF/UHF antennas	284
HF antennas	285
Feed line and connectors	289
Supporting Your Antenna	293
Antennas and trees	293
Masts and tripods	294
Towers	295
Rotators	296

Station Accessories	298
Mikes, keys, and keyers	298
Antenna system gadgets	299
Digital mode interfaces.	301
Remote Control Stations	302
Remote control rules	302
Accessing a remote control station.	303
Upgrading Your Station	304
CHAPTER 13: Organizing a Home Station	307
Designing Your Station	307
Keeping a station notebook.	308
Building in ergonomics.	309
Viewing some example ham stations.	312
Building in RF and Electrical Safety.	316
Electrical safety	316
RF exposure	317
First aid	318
Grounding and Bonding.	319
AC and DC power.	320
Lightning.	320
RF management.	321
CHAPTER 14: Computers in Your Ham Station	323
What Type of Computers Do Hams Use?	323
Windows	324
Linux	324
Macintosh	324
Android and iOS.	324
Microcontrollers	325
What Do Ham Computers Do?	325
Software-defined radio.	326
WSJT-X and fldigi	327
Radio and remote control	327
Hardware considerations.	328
Keeping a Log of Your Contacts	329
Paper logging	329
Computer logging	330
Submitting a contest log.	333
Confirming Your Contacts	335
QSL cards	335
QSLing electronically.	336
Direct QSLing	337
Using QSL managers.	337

Bureaus and QSL services	338
Applying for awards	339
CHAPTER 15: Operating Away from Home.....	341
Mobile Stations	341
HF mobile radios	342
Mobile installations.....	343
Mobile antennas	347
Portable Operating	349
Portable antennas.....	353
Portable power	354
Field Day	355
Field Day “gotchas”	357
CHAPTER 16: Hands-On Radio.....	359
Acquiring Tools and Components.....	360
Maintenance tools.....	360
Repair and building tools	366
Components for repairs and building	368
Maintaining Your Station	370
Overall Troubleshooting.....	372
Troubleshooting Your Station	372
Power problems	373
RF problems	374
Operational problems.....	375
Troubleshooting RF Interference	377
Dealing with interference to other equipment.....	378
Dealing with interference to your equipment.....	380
Building Equipment from a Kit	383
Building Equipment from Scratch.....	384
PART 5: THE PART OF TENS.....	385
CHAPTER 17: Ham Radio Jargon — Say What?	387
Spoken Q-signals.....	387
Contesting or Radiosport.....	388
Antenna Varieties	388
Feed Lines.....	389
Antenna Tuners	389
Repeater Operating.....	390
Grid Squares.....	391

Interference and Noise	391
Connector Parts	392
Solar and Geomagnetic Activity	393
CHAPTER 18: Technical Fundamentals	395
Electrical Units and Symbols	395
Ohm's Law	396
Power	397
Decibels	397
Attenuation, Loss, and Gain	398
Bandwidth	398
Filters	399
Antenna Patterns	400
Standing Wave Ratio (SWR)	401
Battery Characteristics	402
Satellite Tracking	402
CHAPTER 19: Tips for Masters	405
Listening to Everything	405
Learning How It Works	406
Following the Protocol	406
Keeping Your Axe Sharp	406
Practice to Make Perfect	406
Paying Attention to Detail	407
Knowing What You Don't Know	407
Maintaining Radio Discipline	407
Make Small Improvements Continuously	408
Help Others and Accept Help from Others	408
INDEX	409
