Preface

vii

1	Basic Properties	1
1.1	Introduction	1
1.2	Properties of Amino Acids	2
1.3	The Peptide Bond	22
1.4	Secondary Structures	24
1.5	Peptide Structure and Conformation Characterization Methods	32
1.6	Peptide Databases and Web Software	39
	Bibliography	43
2	Synthesis	45
2.1	Introduction	45
2.2	Solid-Phase Peptide Synthesis	46
2.3	Solution-Phase Peptide Synthesis	58
2.4	Methods to Prepare Longer Peptides	59
2.5	Peptide Library Synthesis	62
2.6	Synthesis of Cyclic Peptides	65
2.7	Peptidomimetics	69
2.8	Post-Translational Modifications	70
2.9	Lipidation	71
2.10	Glycosylation	73
2.11	Polypeptide Polymers and Conjugates of Peptides and Polymers	74
2.12	Non-Ribosomal Peptide Synthesis	80
2.13	Purification and Analysis Methods	80
	Bibliography	84

3	Amyloid and Other Peptide Aggregate Structures	87
3.1	Introduction	87
3.2	Amyloid	90
3.3	Amyloid β	93
3.4	Mechanisms and Kinetics of Amyloid Aggregation	100
3.5	Toxicity and Relevance to Disease	105
3.6	Fibrillization of Small Peptides	108
3.7	Biological Functional Amyloid and Bioengineering Applications of Amyloid Materials	110
3.8	Fibrils From α -Helices	111
3.9	Peptide Hydrogels and Tissue Scaffolds	112
3.10	Peptide Nanotubes	116
3.11	Peptide and Peptide Conjugate Assemblies	119
3.12	Characterization Methods for Peptide Assemblies	124
	Bibliography	130
4	Antimicrobial and Cell-penetrating Peptides	133
4.1	Introduction	133
4.2	Bacterial Pathogens, Targets of Antibacterial Agents, and Antimicrobial Resistance Pathways	134
4.3	Testing Antimicrobial Activity	139
4.4	Bacterial Biofilms	140
4.5	Design of Antimicrobial Peptides	144
4.6	Classes of Antibacterial Peptides	146
4.7	Antifungal Peptides	155
4.8	Antiviral Peptides	159
4.9	Antiparasitic Peptides	160
4.10	Mechanisms of Activity	160
4.11	Cell-Penetrating Peptides	164
	Bibliography	167
5	Peptide Hormones and Peptide Therapeutics	169
5.1	Introduction	169
5.2	General Principles of Peptide Therapeutics	170
5.3	Peptide Hormones	176
5.4	Neuropeptides and other Peptides <i>In vivo</i>	202
5.5	Venom-Derived Peptides	204
5.6	Anticancer Peptides	207
5.7	Miscellaneous Peptide Therapeutics	212
5.8	Cosmetic Peptides and Lipopeptides	214
	Bibliography	216
	<i>Index</i>	219
