

Contents at a Glance

Introduction	1
Part 1: Getting Started with Project	5
CHAPTER 1: Project Management, MS Project, and You	7
CHAPTER 2: Starting the Project	23
CHAPTER 3: Becoming a Task Master	41
CHAPTER 4: The Codependent Nature of Tasks	55
CHAPTER 5: Estimating Task Time	67
CHAPTER 6: Check Out This View!	83
Part 2: Managing Resources	103
CHAPTER 7: Creating Resources	105
CHAPTER 8: Working with Calendars	121
CHAPTER 9: Assigning Resources	137
CHAPTER 10: Determining a Project's Cost	149
Part 3: Before You Baseline	159
CHAPTER 11: Fine-Tuning Your Plan	161
CHAPTER 12: Negotiating Project Constraints	175
CHAPTER 13: Making the Project Look Good	189
CHAPTER 14: It All Begins with a Baseline	207
Part 4: Staying on Track	217
CHAPTER 15: On the Right Track	219
CHAPTER 16: Project Views: Observing Progress	235
CHAPTER 17: You're Behind — Now What?	249
CHAPTER 18: Spreading the News: Reporting	265
Part 5: Working with Sprints Projects	285
CHAPTER 19: Setting Up a Sprints Project	287
CHAPTER 20: Tracking a Sprints Project	299
CHAPTER 21: Getting Better All the Time	307

Part 6: The Part of Tens	317
CHAPTER 22: Ten Golden Rules of Project Management.	319
CHAPTER 23: Ten Cool Shortcuts in Project	327
Glossary	333
Index	341

INTRODUCTION	1
About This Book	1
What's Not in This Book	2
Foolish Assumptions	2
Icons Used in This Book	3
Beyond the Book	3
Where to Go from Here	4
PART 1: GETTING STARTED WITH PROJECT	5
CHAPTER 1: Project Management, MS Project, and You	7
Project Management Evolution	8
What's in a Name: Projects, Project Management, and Project Managers	9
Project managers and Scrum masters	10
The role of the project manager	11
The role of the Scrum master	12
Introducing Microsoft Project	13
Getting to Know You	14
Navigating Ribbon tabs and the Ribbon	17
Displaying more tools	20
Tell Me What You Want to Do	22
CHAPTER 2: Starting the Project	23
Creating the Project Charter	24
Introducing the Work Breakdown Structure (WBS)	26
Organizing the Work	27
Starting the Project	28
Entering project information	29
Entering the WBS	31
Indenting and outdenting (a.k.a. promoting and demoting)	32
Entering tasks	33
Weighing manual scheduling versus automatic scheduling	35
Inserting one project into another	37
Inserting hyperlinks	38
CHAPTER 3: Becoming a Task Master	41
Creating Summary Tasks and Subtasks	41
How many levels can you go?	43
The project summary task	43

Moving Tasks Up, Down, and All Around	45
Moving tasks with the drag-and-drop method	45
Moving tasks with the cut-and-paste method	46
Now You See It, Now You Don't: Collapsing and Expanding the Task Outline.	47
Showing Up Again and Again: Recurring Tasks	48
Setting Milestones	50
Deleting Tasks and Using Inactive Tasks	51
Making a Task Note	52
CHAPTER 4: The Codependent Nature of Tasks	55
How Tasks Become Dependent	56
Dependent tasks: Which comes first?	56
Dependency types	57
Allowing for Murphy's Law: Lag and lead time	59
Setting the Dependency Connection	60
Adding the dependency link	60
Words to the wise	62
Understanding that things change: Deleting dependencies	64
CHAPTER 5: Estimating Task Time	67
You're in It for the Duration	68
Tasks come in all flavors: Identifying task types	68
Effort-driven tasks: $1 + 1 = \frac{1}{2}$	71
Estimating Effort and Duration	72
Estimating techniques	72
Setting the task duration	74
Controlling Timing with Constraints	76
Understanding how constraints work	76
Establishing constraints	76
Setting a deadline	78
Starting and Pausing Tasks	79
Entering the task's start date	80
Taking a break: Splitting tasks	81
CHAPTER 6: Check Out This View!	83
A Project with a View	83
Navigating tabs and views	84
Scrolling around	86
Reaching a specific spot in your plan	87
More Detail about Views	88
Home base: Gantt Chart view	88
Resourceful views: Resource Sheet and Team Planner	89
Getting your timing down with the Timeline	90

Going with the flow: Network Diagram view	91
Calling up Calendar view	91
Customizing Views.	92
Working with view panes	93
Modifying Network Diagram view.	98
Resetting the view	100
PART 2: MANAGING RESOURCES	103
CHAPTER 7: Creating Resources	105
Resources: People, Places, and Things.	105
Becoming Resource-Full	106
Understanding resources.	106
Resource types: Work, material, and cost	107
How resources affect task timing	108
Estimating resource requirements	109
The Birth of a Resource	110
Creating one resource at a time	110
Identifying resources before you know their names	112
Many hands make light work.	113
Managing Resource Availability.	113
Estimating and setting availability.	114
When a resource comes and goes	115
Sharing Resources.	116
Skimming from resource pools	116
Importing resources from Outlook.	119
CHAPTER 8: Working with Calendars	121
Mastering Base, Project, Resource, and Task Calendars	122
Setting the base calendar for a project	122
Understanding the four calendar types	122
How calendars work	123
How one calendar relates to another.	123
Scheduling with Calendar Options and Working Times.	124
Setting calendar options.	125
Setting exceptions to working times.	126
Working with Task Calendars and Resource Calendars.	128
Setting resource calendars.	129
Making a change to a resource's calendar.	130
Creating a Custom Calendar Template	132
Sharing Copies of Calendars	134

CHAPTER 9: Assigning Resources	137
Finding the Right Resource	137
Needed: One good resource willing to work	138
Custom fields: It's a skill	139
Making a Useful Assignment	140
Determining material and cost-resource units	140
Making assignments	141
Shaping the contour that's right for you	145
Benefitting from a Helpful Planner	147
CHAPTER 10: Determining a Project's Cost	149
How Do Costs Accrue?	150
Adding up the costs	150
When will these costs hit the bottom line?	151
Specifying Cost Information in the Project	152
You can't avoid fixed costs	153
Entering hourly, overtime, and cost-per-use rates	154
Assigning material resources	156
PART 3: BEFORE YOU BASELINE	159
CHAPTER 11: Fine-Tuning Your Plan	161
Everything Filters to the Bottom Line	161
Setting predesigned filters	162
Putting AutoFilter to work	163
Creating do-it-yourself filters	166
Gathering Information in Groups	167
Applying predefined groups	169
Devising your own groups	169
Figuring Out What's Driving the Project	171
Inspecting tasks	172
Handling task warnings, suggestions, and problems	173
CHAPTER 12: Negotiating Project Constraints	175
It's about Time	176
Applying contingency reserve	176
Completing a task in less time	177
Getting What You Want for Less	180
The Resource Recourse	181
Checking resource availability	181
Deleting or modifying a resource assignment	183
Beating overallocations with quick-and-dirty rescheduling	184
Finding help	184
Leveling resources	185
Rescheduling the Project	188

CHAPTER 13: Making the Project Look Good	189
Looking Good!	190
Formatting the Gantt Chart	190
Formatting taskbars	190
Zeroing in on critical issues	194
Restyling the Gantt chart	194
Formatting Network Diagram Boxes	195
Adjusting the Layout	197
Modifying Gridlines	199
Recognizing When a Picture Can Say It All	201
Creating a Custom Text Field	202
CHAPTER 14: It All Begins with a Baseline	207
All about Baselines	208
Saving a baseline	208
Saving more than one baseline	210
Clearing and resetting a baseline	211
In the Interim	212
Saving an interim plan	213
Clearing and resetting an interim plan	214
PART 4: STAYING ON TRACK	217
CHAPTER 15: On the Right Track	219
Tracking Views	220
Setting the status date	220
Tracking status with the Task sheet	221
Using the Tracking table	221
Tracking buttons	222
Determining the percent complete	223
Tracking status with Task Usage view	224
Tracking status with Resource Usage view	224
Uh-oh — you're in overtime	225
Specifying remaining durations for auto-scheduled tasks	226
Entering fixed-cost updates	227
Moving a Task	228
Update Project: Sweeping Changes	230
Tracking Materials	232
Tracking More than One Project	233
CHAPTER 16: Project Views: Observing Progress	235
Seeing Where Tasks Stand	236
Baseline versus actual progress	236
Lines of progress	236
Delving into the Detail	240

Tracking Progress Using Earned Value Management	242
Viewing the Earned Value table	244
Earned value options	244
Calculating behind the Scenes	246
An abundance of critical paths	246
CHAPTER 17: You're Behind — Now What?	249
Using Project with Risk and Issue Logs	249
Documenting issues	250
Printing interim plans and baselines	250
What-If Scenarios	251
Sorting tasks	252
Filtering	253
Examining the critical path	254
Using resource leveling (again)	255
Determining which factors are driving the timing of a task	256
How Adding People or Time Affects the Project	257
Hurrying up and making modifications	257
Throwing resources at the problem	258
Shifting dependencies and task timing	259
When All Else Fails	261
Taking the time you need	261
Finding ways to cut corners	262
CHAPTER 18: Spreading the News: Reporting	265
Generating Standard Reports	266
What's available on the Report tab	266
Dashboard reports	267
Creating New Reports	268
Gaining a new perspective on data with visual reports	270
Creating a visual report	270
Fine-Tuning a Report	271
Dragging, dropping, and sizing	272
Looking good!	273
Spiffing Things Up	274
Calling the Printer!	276
Working with Page Setup	277
Getting a preview	279
Finalizing your print options	280
Working on the Timeline	281
Adding tasks to the Timeline	281
Customizing the Timeline	283
Copying the Timeline	283

PART 5: WORKING WITH SPRINTS PROJECTS	285
CHAPTER 19: Setting Up a Sprints Project	287
Creating a Sprints Project	287
Enjoying a Whole New View	290
The Task Board and Task Board sheet	291
The Sprint Planning Board and Sprint Planning sheet	292
The Current Sprint Board and Current Sprint sheet	293
The Backlog Board and the Backlog sheet	293
Adding Information to Tasks	294
Prioritizing Tasks	296
Inserting a Sprints Project into a Plan-Driven Project	296
CHAPTER 20: Tracking a Sprints Project	299
Viewing Your Sprints Project Data	299
Using filters to focus	300
Using tables to arrange data	300
Being a groupie	302
Sorting tasks	302
Creating Sprints Reports	303
CHAPTER 21: Getting Better All the Time	307
Reviewing the Project	308
Learning from your mistakes	308
Fine-tuning communication	309
Comparing Versions of a Project	310
Building on Success	312
Creating a template	312
Mastering the Organizer	314
PART 6: THE PART OF TENS	317
CHAPTER 22: Ten Golden Rules of Project Management	319
Roll with It	319
Put Your Ducks in a Row	320
Expect the Unexpected	321
Don't Put Off until Tomorrow	322
Delegate, Delegate, Delegate	322
Document It	323
Keep the Team in the Loop	323
Measure Success	324
Maintain a Flexible Strategy	325
Learn from Your Mistakes	325

CHAPTER 23: Ten Cool Shortcuts in Project	327
Task Information.....	327
Resource Information.....	328
Frequently Used Functions.....	329
Subtasks.....	330
Quick Selections.....	330
Fill Down.....	331
Navigation.....	331
Hours to Years.....	331
Timeline Shortcuts.....	331
Quick Undo.....	332
GLOSSARY	333
INDEX	341
