

Index

A

- account creation, 17
 - choosing platforms (web, desktop, and mobile), 19–20
 - data handling, 20–21
 - incognito conversations, 21–22
 - setup, confirming, 22
 - signing up at claude.ai, 18
- account deletion, 32–33
- accounts, setting up and managing, 17
 - interface, touring, 33
 - controls, locating, 33–35
 - main screen, navigating, 33
 - styles and preferences, customizing Claude with, 35–37
- plan, choosing, 22
 - Free plan, 22, 25–26
 - Max plan, 22, 27–28
 - Pro plan, 22, 26–27
 - upgrade decisions, 28–29
- plans and accounts, managing, 29
 - billing and payment methods, 31–32
 - downloading and deleting data, 32–33
 - login security, 32
 - subscription changes, 29–31
- accuracy vs confidence, 347
- Acme Corp, 88
- actionable information, 145
- action items, extracting, 197
- action-oriented messages, 177–178
- action plans with constraints, building, 137
- adaptive thinking, 163, 314
- AI (artificial intelligence), defining, 8
- AI-Powered Artifacts, 262
- alternative tools, knowing when to use, 14–16
- ambiguity in prompts, 358
- analysis paralysis, overcoming, 355
- analysis templates, 133
 - content against criteria, analyzing, 133–135
 - insights in data and documents, finding, 134
 - options based on priorities, evaluating, 135–136
 - summaries highlighting key points, 135
- answer formats, understanding, 144
- answer sounding like guesses, 361
- Anthropic, 8, 18, 20–21
- Anthropic Skills, 105
- Apple's Hide My Email feature, 18
- Archived Projects, 89
- articles, reports, and documents, structuring, 181–182
- artifacts, 10, 20, 251, 261, 280. *See also* Claude Design; Projects; visualizations
 - Claude Design for visual projects, exploring, 282
 - effective artifact requests, 274
 - clear descriptions, providing, 275
 - context and constraints, providing, 275–276
 - initial versions, testing and troubleshooting, 276
 - enabling, 262–263
 - exploring, 263–264
 - exporting artifacts for external use, 280–281
 - first artifact, requesting, 264–265
 - recognizing when artifacts are needed, 265
 - automatic artifact creation, understanding, 267–268
 - specific artifact formats, requesting, 268
 - what artifacts do beyond conversations, 267

artifacts (*continued*)

- refinement through iteration, 276
 - existing artifacts for new uses, remixing, 279
 - features and improvements, adding, 277–278
 - fixing problems and adjusting behavior, 278–279
- successful artifacts into new Projects, bringing, 281–282
- types, 269
 - data visualizations and diagrams, creating, 271–272
 - formatted documents and reports, building, 270–271
 - interactive tools and calculators, creating, 269–270
 - matching goals to artifact types, 274
 - web components and layouts, designing, 273–274
- assumptions, unstated, 338
- audience and tone, determining, 170
- authentication, passwordless, 18
- authoritative sources, verification with, 289
- automatic artifact creation, understanding, 267–268
- automatic saving, 92
- automatic vs manual saving, 92–93
- automation without coding, 220–221
- autonomous desktop agent, 317

B

- background, adding, 60–61
- better framing, restarting with, 340
- big goals into manageable steps, breaking, 207–208
- big projects into manageable steps, breaking, 138
- billing and payment methods, 31–32
- Billing section in Settings, 31
- blank page, 227, 240
- blank page paralysis, overcoming, 354
- blank page problem, 170–171

- blank page syndrome, overcoming, 170
 - getting started, 171–172
 - outlines and first drafts, creating, 172–173
- blank prompts, starting from, 122
- bracketed variables, 141
- brainstorming, 202, 228, 356. *See also* idea generation; targeted ideas, generating
- brand voice and consistency, maintaining, 233–234
- breakpoints, recognizing, 75–76
- browser version, 19
- browsing and installing plugins, 331–332
- buffers in project planning, 209
- built-in conversation starters, 122–124
- built-in knowledge, 285
 - vs current facts, 296–297
- business decisions, learning for, 189

C

- Calculate Payment button, 264
- calculators
 - interactive, 269–270
 - mortgage, 275
- camera capabilities, 19–20
- Canva, 26, 109
- charts and diagrams, understanding, 225–226
- clarifying questions from Claude, 357–358
- clarity-brevity-action triangle, 177
- clarity editing, 173
- clarity, importance of, 56–58
- Claude, defined, 1
- Claude Design, 282
- Claude Haiku, 312
- Claude Opus, 312
- Claude Sonnet, 312
- Claude's Choice (conversation starter), 122
- clear descriptions, providing, 275
- clear request, 39
 - follow-up questions, asking, 41–42

- reading and using Claude's response, 41
- understanding, 40–41
- client and Project-specific knowledge, managing, 88
- code and technical implementation, 13
- code and technical instructions, following, 144–145
- Code (conversation starter), 122
- code execution, 219, 249
- cognitive biases, checking for, 207
- combining techniques, 155
 - keeping prompts simple, 163
 - complexity hurting results, troubleshooting, 164–165
 - one technique, when enough, 164
 - overengineering, recognizing, 163–164
- multiple instructions, layering, 157
 - examples + style + format, combining, 160
 - pattern + context + requirements, applying, 160–161
 - role + task + constraints, 157
 - role-setting, when it helps, 157–160
- powerful combinations, ready-to-use, 161
 - example + template + constraint technique, 162–163
 - question type + reasoning + critique method, 162
 - role + context + style approach, 161–162
- putting techniques together, 166
- reusable workflows, creating, 165
 - multistep processes, building, 165
 - successful combinations, saving, 165–166
 - workflows for new situations, adapting, 166
- why it works, 156
 - layering, when it adds value, 156–157
 - multiple requirements, handling, 156
- common problems, fixing, 337
 - Claude misunderstandings, fixing, 337
 - better framing, restarting with, 340
 - missing context, adding, 339
 - specificity, improving, 338–339
 - generic responses, avoiding, 341
 - constraints, adding, 342–343
 - examples, providing, 341–342
 - styles and formats, requesting, 343
 - problem patterns, understanding, 349–350
 - quality problems in responses, diagnosing, 343
 - asking too much at once, avoiding, 344–345
 - different prompt approaches, trying, 346
 - enough information, verifying, 345
 - recognizing when Claude seems wrong or confused, 347
 - confidence mistakes, spotting, 347
 - external verification, knowing when needed, 349
 - sources and reasoning, requesting, 348
- compelling presentation outlines, outlining, 234–235
- competitive intelligence, 295
- completeness and accuracy, checking for, 145–146
- complex calculations, 14
- complexity hurting results, troubleshooting, 164–165
- complex requests, working through, 73
 - breaking requests into steps, 74–75
 - breakpoints, recognizing, 75–76
 - follow-up questions for refinement, 76
 - start afresh, knowing when to, 76–78
- complex topics
 - confusing concepts, breaking down, 186–187
 - explanations at one's level, 187–189
 - learning quickly, 354
 - learning without fear, 189–190
 - simplified, 11
- computer use, 329
 - in Cowork, 329–330
 - enabling, on computer, 330–331
- Computer Use toggle, 330, 331
- confidence mistakes, spotting, 347
- confident-sounding mistakes, spotting, 147
- confusing concepts, breaking down, 186–187

- connected service, working with, 113
- connection stage in long-form writing, 181
- Connectors, 26–27, 102, 318, 329–330
 - directory, 112
 - permissions, reviewing, 113
- consistency across sections, maintaining, 182
- constraints, 57, 62–63
 - adding, 342–343
 - paradox, 63
 - in templates, 125, 137, 141–142
- contact forms, 273
- content against criteria, analyzing, 133–135
- content between styles, transforming, 127–128
- content creation for work and life, 227
 - idea generation, 227
 - brainstorming, 228
 - finding angles others miss, 230
 - first ideas, pushing past, 229
- presentations and slide content, building, 234
 - compelling presentation outlines, outlining, 234–235
 - speaker notes and scripts, creating, 237
 - writing slide text that works, 236
- recipes, meal plans, and travel itineraries
 - creation, 238
 - detailed travel itineraries, creating, 239–240
 - meals, planning, for dietary needs, 238–239
- social media and marketing content, writing, 231
 - brand voice and consistency, maintaining, 233–234
 - tailoring content for different platforms, 232–233
 - writing posts that get responses, 231–232
- content for specific audiences, generating, 125–126
- content, long-form, creating, 180
 - articles, reports, and documents, structuring, 181–182
 - consistency across sections, maintaining, 182
 - ideas into complete pieces, developing, 183–184
- context analysis, 57
- context and constraints
 - including, 62–63
 - providing, 275–276
- context for Claude, providing, 60
 - background, adding, 60–61
 - context and constraints, including, 62–63
 - examples, using, 61–62
- context in long conversations, managing, 154
- context + task + style + format, 157
- context window, long, 10
- contingency planning, 210
- continuing vs starting afresh, 154
- controls, locating, 33–35
- conversations. *See also* multi-turn conversations; voice mode
 - history, 25
 - managing, 44–45
 - vs search engine approach, 73–74
- Copilot, 8
- copy-and-use analysis templates, 133
 - content against criteria, analyzing, 133–135
 - insights in data and documents, finding, 134
 - options based on priorities, evaluating, 135–136
 - summaries highlighting key points, 135
- copy-and-use learning templates, exploring, 129
 - comparing concepts and differences, 130–131
 - explanations tailored to knowledge level, 129–130
 - problems, diagnosing and fixing, 132–133
 - skills, mastering step-by-step, 131–132
- copy-and-use planning templates, viewing, 136
 - action plans with constraints, building, 137
 - big projects into manageable steps, breaking, 138
 - targeted ideas, generating, 138–139
 - templates for recurring tasks, developing, 139–140

- copy-and-use writing templates, reviewing, 125
 - content between styles, transforming, 127–128
 - content for specific audiences, generating, 125–126
 - existing text, improving and refining, 126–127
 - length adjustment without losing meaning, 128–129
- Copy button, 280
- copy feature, 44
- copying and sharing responses, 44
- Cowork (desktop agent), 27, 317
 - computer use in Cowork, 329
 - computer use, enabling, 330–331
 - computer use in Cowork, understanding, 329–330
 - Dispatch for phone-based tasks, 325
 - Dispatch setup, 325–328
 - tasks and results through Dispatch, managing, 328–329
- getting started with Cowork, 319
 - first task, setting up and running, 319–321
 - monitoring progress and mid-task steering, 321
- limits, 333
 - current limitations, 333–334
 - work safety practices, 334–335
- one-off tasks in, 322
- plugins and scheduled tasks, 331
 - browsing and installing plugins, 331–332
 - scheduled tasks, setting up, 333
- Projects in Cowork, organizing work with, 322
 - Cowork Project, creating, 322–323
 - global and folder instructions, setting, 324–325
- understanding, 318
 - Cowork vs regular chat, 318
 - tasks to hand off, identifying, 319
- Cowork Plugin Create plugin, 332
- Cowork Project, creating, 322–323
- cross-conversation memory of Claude, 92
- CSV files, 219, 220
- current data, 285–287, 289, 298, 299
- current information, accessing, 283
 - combining Claude's knowledge with fresh data, 296
 - building reports using both sources, 298–299
 - built-in knowledge vs current facts, 296–297
 - training data with search results, blending, 297–298
- knowledge cutoff, overcoming, 283
 - knowing when current data matters, 285–286
 - web search vs research mode, 284–285
- research mode for deep investigation, 291
 - getting reports with citations, 293–295
 - research mode to Google Workspace, connecting, 293
 - research strategies beyond publication workflows, 295
 - when research mode beats web search, 291–293
- web search, 286
 - current news, prices, and data, getting, 289
 - enabling, 286–287
 - search-triggering questions, asking, 288–289
 - strengths and limitations, 290
- curse of knowledge, 174
- Custom Connectors, 110
- custom examples, practicing with, 191–192
- custom instructions, 93
 - Projects vs, 86
- customization of templates, 124–125
- customization tools, 101
- Customize hub, 101–102
- Customize sidebar, 105
- customizing Claude, 50
 - custom instructions, setting up, 50–51
 - display and language preferences, adjusting, 52–54
 - styles for different purposes, creating, 52
- custom Skills, 105–106

D

- data. *See also* documents; spreadsheets
 - downloading and deleting, 32–33
 - fresh data, combining with Claude’s knowledge, 296–299
 - time-sensitive, 289
- data analysis without being a data scientist, 215
 - numbers, understanding what they mean, 218
 - patterns in data, understanding, 216
 - summaries and insights, creating, 217
- data handling, 20–21
- data quality issues, checking, 249
- data-to-insights workflows, 248
 - data files, uploading and exploring, 248–249
 - pattern analysis and visualization creation, 250–251
 - results and recommendations, presenting, 251–253
- data visualizations, 280
 - and diagrams, creating, 271–272
- decision documentation, 258
- decision frameworks, 204
- decision-making, 212
 - organizing information for, 197–198
- decision-making and problem-solving, 199
 - getting unstuck, 199
 - ideas before committing, testing, 202–203
 - new solutions, finding, 200–201
 - options, exploring systematically, 201–202
 - right approach, choosing, 203
- making better decisions faster, 204
 - pros and cons, weighing objectively, 204–205
 - second opinion, getting, 206–207
 - trade-offs, analyzing, 205–206
- projects and workflows, planning, 207
 - big goals into manageable steps, breaking, 207–208
 - obstacles and solutions, anticipating, 209–210
 - realistic timelines and milestones, creating, 208–209
- decision matrices, 197
- decision rationale, documenting, 258
- decisions
 - gut feeling vs systematic analysis, 204
 - trade-offs in, 205–206
- decisions and implementation plans, documenting, 256–258
- decorative role-setting, 158
- deep investigation, research mode for, 291, 306
 - getting comprehensive reports on complex topics, 310–311
 - getting reports with citations, 293–295
 - research mode conversations, starting, 307–309
 - research mode to Google Workspace, connecting, 293
 - research mode vs regular chat, 309–310
 - research strategies beyond publication workflows, 295
 - when research mode beats web search, 291–293
- deep, multi-turn interactions, 9
- deep thinking, speed vs, 313
- Delete Account, 32–33
- dense documents, 196
- depth-optimized combinations, 313
- desktop app, 19, 319, 321, 323
- detail, amount to include, 58–59
- development stage in long-form writing, 181
- diagnostic feedback, 170, 173
- diagrams, understanding, 225–226
- dictation feature, 46
- dietary needs, planning meals for, 238–239
- difficult communications, handling diplomatically, 180
- discovering best uses of Claude, 10
 - learning complex topics, 11–12
 - writing and thinking, 10–11
- Dispatch for phone-based tasks, 325
 - Dispatch setup, 325–328
 - tasks and results through Dispatch, managing, 328–329
- Dispatch welcome screen, 326, 327
- display preferences, adjusting, 52–54

- distinctive features of Claude, 9–10
- document analysis, 9
- documents
 - formatted, 262, 267, 268, 270–271, 280
 - instant answers from, 212
 - multiple documents, comparing, 214–215
 - specific information, finding quickly, 213–214
 - uploading and asking questions, 212–213
- document uploads, 196, 212
- domain Projects, 87
- draft creation and polish, 10
- due diligence, 295
- dumb questions, 11

E

- editing
 - clarity, 173
 - fact-checking, and finalizing, 246–248
 - polish, 173
 - structural, 173
- editing assistance, 354
- editing levels, 173
- email option, 18
- emails
 - crafting professional emails, 178–179
 - drafting, 10
 - subject lines, 65
 - writing effective, 177
 - difficult communications, handling diplomatically, 180
 - professional emails, crafting, 178–179
 - tone for the situation, getting right, 179
 - writing in seconds, 353–354
- emerging topics, learning about, 295
- Enterprise plan, 7, 23
- essential features, trying, 42
 - conversation history, managing, 44–45
 - copying and sharing responses, 44
 - responses, regenerating, 43–44
- essential vs optional examples, 67–68

- example library, building, 68
 - best examples, saving, 68–69
 - reusable materials in Projects, organizing, 70
 - uploaded documents for reference, 69–70
- examples
 - importance of, 64
 - positive and negative, 65
- examples + style + format, combining, 160
- example + template + constraint technique, 162–163
- Excel files, 105, 219–220
- existing text, improving and refining, 126–127
- expectations, setting, 71–72
- expert fixes, 132–133
- explanations
 - at one's level, 11, 187–189
 - tailored to knowledge level, 129–130
- exporting data, 32
- exports
 - HTML, 280–281
 - PDF, 280
- extended thinking, 24, 26, 30, 302
 - differences in, 302–304
 - thinking insights, using, 306
 - when to use, 304–305
- extended thinking and research mode, using, 301
- models and modes for tasks, choosing, 311
 - model differences, understanding, 312
 - research mode for thorough investigation, launching, 315
 - speed vs deep thinking, 313
 - switching between models strategically, 314
 - using standard chat for most tasks, 314–315
- research mode for deep dives, accessing, 306
 - comprehensive reports on complex topics, getting, 310–311
 - research mode conversations, starting, 307–309
 - research mode vs regular chat, 309–310

- external services, browsing and connecting, 109
 - connected service, working with, 113
 - services, connecting to, 110–113
- external verification, knowing when needed, 349

F

- Facebook, 232, 233
- fact-checking, 246–248
- facts and claims, verifying, 146
- fact verification strategies, 146
- feedback
 - diagnostic, 170, 173
 - “fresh eyes” effect, 174
 - getting feedback on attempts, 192
- Figma, 26, 109, 112
- file creation, 105–108, 219
- file types, working with, 223
 - charts and diagrams, understanding, 225–226
 - PDFs, Word docs, and spreadsheets, processing, 223–224
 - text from images, extracting, 224–225
- file uploads and analysis, 23
- first artifact, requesting, 264–265
- first drafts
 - creating, 172–173
 - creating instantly, 355
- first ideas, pushing past, 229
- first successful conversations with Claude, 39
 - clear request, 39
 - follow-up questions, asking, 41–42
 - reading and using Claude’s response, 41
 - understanding, 40–41
- customizing Claude, 50
 - custom instructions, setting up, 50–51
 - display and language preferences, adjusting, 52–54
 - styles for different purposes, creating, 52
- essential features, trying, 42
 - conversation history, managing, 44–45

- copying and sharing responses, 44
 - responses, regenerating, 43–44
- voice mode, getting started with, 46
 - voice accuracy and editing, tips for, 49–50
 - voice mode availability, 46–48
 - voice vs typing, 48–49
- first task, setting up and running, 319–321
- folder instructions, 325
- follow-up questions, 41–42
 - asking, 41–42
 - for refinement, 76
- follow-ups for added depth, 152–153
- follow-ups reference, 152–153
- forgetting information, controlling, 98
- format requests, 343
- formatted documents and reports, building, 262, 267, 268, 270–271, 280
