INTRODUCTION	1
About This Book	1
Foolish Assumptions	2
Icons Used in This Book	2
Beyond the Book	3
Where to Go from Here	3
 PART 1: GETTING STARTED WITH CLAUDE	 5
CHAPTER 1: Introducing Claude	7
Describing Claude	7
Defining AI without the jargon	8
Understanding how Claude differs from search engines	8
Knowing what makes Claude special	9
Discovering How Best to Use Claude	10
Writing and thinking	10
Learning complex topics	11
Recognizing What to Verify	12
Understanding When to Use a Different Tool	14
 CHAPTER 2: Setting Up and Managing Your Account	 17
Creating Your Account in Five Minutes	17
Signing up at claude.ai	18
Choosing between web, desktop, and mobile	19
Understanding what happens to your data	20
Using incognito conversations for extra privacy	21
Confirming your setup	22
Choosing a Plan	22
Starting with the Free plan	25
Upgrading to Pro for everyday power users	26
Choosing Max for professional and advanced work	27
Comparing capabilities and knowing when to upgrade	28
Managing Your Plan and Account	29
Upgrading or downgrading your subscription	29
Adjusting billing and payment methods	31
Keeping your account secure	32
Downloading and deleting your data	32
Touring the Interface	33
Finding your way around the main screen	33
Locating the controls you'll use most	33
Customizing Claude with Styles and Preferences	35

CHAPTER 3:	Having a Successful First Conversation	39
	Starting with a Clear Request	39
	Understanding what makes a request clear	40
	Reading and using Claude's response	41
	Asking follow-up questions that improve results	41
	Trying Essential Features Right Away	42
	Regenerating responses when needed	43
	Copying and sharing what Claude creates	44
	Managing your conversation history	44
	Getting Started with Voice Mode	46
	Understanding when voice mode is available	46
	Knowing when voice beats typing	48
	Quick tips for voice accuracy and editing	49
	Customizing Claude to Work Your Way	50
	Setting up custom instructions that apply everywhere	50
	Creating different styles for different purposes	52
	Adjusting display and language preferences	52
CHAPTER 4:	Crafting Prompts That Get Results	55
	Being Clear and Specific	56
	Understanding why clarity matters	56
	Knowing how much detail to include	58
	Being specific about what you want	59
	Providing the Context Claude Needs	60
	Adding background	60
	Using examples	61
	Including relevant context and constraints	62
	Using Examples to Guide Results	63
	Seeing why examples make a difference	64
	Understanding the show-versus-tell principle	64
	Showing what you want (and don't want)	65
	Setting quality standards with your examples	66
	Knowing when to show versus when to tell	66
	Distinguishing between essential and optional examples	67
	Building your example library	68
	Asking for the Output You Want	70
	Specifying format, tone, and structure	71
	Setting clear expectations	71
	Using the three-part prompt formula	72
	Working through Complex Requests	73
	Breaking big requests into steps	74
	Recognizing where to break	75
	Using follow-up questions to refine results	76
	Knowing when to start afresh	76

CHAPTER 5:	Working with Projects and Memory	79
	Understanding What Projects Are and When to Use Them	80
	Learning how Projects differ from regular chats	80
	Deciding when to use a Project	81
	Setting Up Projects for Success	82
	Creating your first Project	82
	Writing effective Project instructions	84
	Uploading reference documents and knowledge	85
	Comparing Projects and custom instructions	86
	Using Projects for Different Purposes	86
	Setting up Projects for work domains	87
	Creating personal Projects	87
	Managing client or Project-specific knowledge	88
	Managing Your Project Library	88
	Organizing multiple Projects	88
	Switching between Projects and regular chats	89
	Archiving and maintaining Projects	89
	Deleting a Project	91
	Understanding How Memory Works	91
	Learning what Claude remembers across conversations	92
	Saving automatically versus manually	92
	Comparing Memory, Projects, and custom instructions	93
	Managing your privacy with Memory settings	94
	Editing or deleting Memories	95
	Managing What Claude Remembers	97
	Working incognito	97
	Controlling what Claude should forget	98
	Using the Memory feature for better results	98
CHAPTER 6:	Customizing Claude with Skills and Connectors	101
	Introducing the Customize Hub	101
	Learning How Skills Work	102
	Comparing Skills to a regular chat	103
	Knowing what Skills can and cannot do	104
	Understanding Skill Types	105
	Anthropic Skills	105
	Custom Skills	105
	Organization-wide Skills	106
	Setting Up and Using Skills	106
	Activating the Skills you need	106
	Using Skills in conversations	108

Browsing and Connecting External Services	109
Connecting to a service.	110
Working with a connected service	113
Blending Skills with Other Features	114
Combining Skills with Projects for better output	114
Pairing Skills with Memory.....	115
Taking Skills further.	116
PART 2: MASTERING PROMPTING	119
CHAPTER 7: Starting with Proven Prompt Templates.....	121
Understanding Why You Should Use Templates	121
Learning why templates beat starting from scratch	122
Starting with built-in conversation starters and going beyond them	122
Building a personal pattern library.....	124
Customizing versus using as is	124
Reviewing Copy-and-Use Writing Templates.....	125
Generating content for specific audiences	125
Improving and refining existing text.....	126
Transforming content between different styles	127
Adjusting length without losing meaning	128
Exploring Copy-and-Use Learning Templates.....	129
Getting explanations tailored to your level	129
Comparing concepts and highlighting differences.....	130
Mastering skills with step-by-step guidance	131
Diagnosing problems and getting expert fixes.....	132
Looking at Copy-and-Use Analysis Templates	133
Analyzing content against specific criteria.....	133
Finding insights in data and documents	134
Summarizing while highlighting what matters	135
Evaluating options based on your priorities	135
Viewing Copy-and-Use Planning Templates	136
Building action plans that account for constraints.....	137
Breaking big projects into manageable steps.....	138
Generating targeted ideas on demand	138
Developing templates for recurring tasks	139
Troubleshooting Template Results.....	140
CHAPTER 8: Understanding and Evaluating Claude's Responses.....	143
Reading Claude's Responses Effectively.....	143
Understanding how Claude formats answers.....	144
Following code and technical instructions.....	144

Knowing When You Got a Good Answer	145
Checking for completeness and accuracy	145
Verifying facts and claims.	146
Spotting confident-sounding mistakes.	147
Understanding Claude's knowledge cutoff	147
Using Regenerate and Revision Strategically	148
Using retry effectively	148
Asking for specific changes	150
Combining the best parts of multiple attempts	151
Building Effective Multi-Turn Conversations	152
Following up to add depth	152
Catching and correcting misunderstandings early.	153
Managing context in long conversations	154
Continuing versus starting afresh.	154
CHAPTER 9: Combining Techniques for Power Results	155
Understanding Why Combining Techniques Works.	156
Seeing how Claude handles multiple requirements	156
Knowing when layering adds real value.	156
Layering Multiple Instructions Effectively	157
Adding role + task + constraints	157
Understanding when role-setting helps.	157
Combining examples + style + format	160
Applying pattern + context + specific requirements	160
Reviewing Ready-to-Use Powerful Combinations.	161
Combining role + context + style approach.	161
Framing question type + reasoning + critique method	162
Anchoring example + template + constraint technique.	162
Knowing When to Keep It Simple	163
Recognizing overengineering.	163
Understanding when one technique is enough	164
Troubleshooting when complexity hurts results	164
Creating Reusable Workflows	165
Building multistep processes.	165
Saving successful combinations	165
Adapting workflows to new situations	166
Putting It All Together	166
PART 3: USING CLAUDE EVERY DAY	167
CHAPTER 10: Writing Everything Better and Quicker	169
Understanding What Kind of Writing Help You Need	170
Beating Blank Page Syndrome	170
Getting started when you don't know how to start	171
Creating outlines and first drafts quickly.	172

Making Your Writing Stronger	173
Editing with a tireless partner	174
Strengthening arguments and clarity	175
Fixing grammar, style, and tone issues	176
Writing Emails and Messages That Work	177
Crafting professional emails quickly	178
Getting the tone right for the situation	179
Handling difficult communications diplomatically	180
Creating Long-Form Content	180
Structuring articles, reports, and documents	181
Maintaining consistency across sections	182
Developing ideas into complete pieces	183
CHAPTER 11: Learning Anything Faster	185
Understanding Complex Topics Your Way	186
Breaking down confusing concepts	186
Getting explanations at your level	187
Learning without fear	189
Mastering New Skills Step by Step	190
Following personalized tutorials	190
Practicing with custom examples	191
Getting feedback on your attempts	192
Conducting Superfast Research	193
Gathering information from multiple sources	193
Synthesizing key insights quickly	194
Staying current with web search	195
Managing Information Overload	196
Summarizing dense documents instantly	196
Extracting what matters from long content	197
Organizing information for decision-making	197
CHAPTER 12: Solving Problems and Making Decisions	199
Getting Unstuck	199
Finding new solutions	200
Exploring options systematically	201
Testing ideas before committing	202
Choosing the right approach	203
Making Better Decisions Faster	204
Weighing pros and cons objectively	204
Analyzing trade-offs clearly	205
Getting a second opinion instantly	206
Planning Projects and Workflows	207
Breaking big goals into manageable steps	207
Creating realistic timelines and milestones	208
Anticipating obstacles and solutions	209

CHAPTER 13: Handling Data and Documents	211
Getting Instant Answers from Documents	212
Uploading and asking questions	212
Finding specific information fast	213
Comparing multiple documents	214
Analyzing Data without Being a Data Scientist	215
Understanding patterns in your data	216
Creating summaries and insights	217
Getting explanations of what the numbers mean	218
Getting Help with Spreadsheets and Automation	219
Creating formulas for your spreadsheets	219
Automating repetitive work without coding	220
Understanding what Claude provides	221
Making simple adjustments when needed	222
Working with Different File Types	223
Processing PDFs, Word docs, and spreadsheets	223
Extracting text from images	224
Understanding charts and diagrams	225
CHAPTER 14: Creating Content for Work and Life	227
Generating Good Ideas	227
Brainstorming without running out of ideas	228
Pushing past your first (boring) ideas	229
Finding angles others miss	230
Writing Social Media and Marketing Content	231
Writing posts that get responses	231
Tailoring content for each platform	232
Maintaining brand voice and consistency	233
Building Presentations and Slide Content	234
Outlining compelling presentations	234
Writing slide text that works	236
Creating speaker notes and scripts you can use	237
Making Recipes, Meal Plans, and Travel Itineraries	238
Planning meals for your dietary needs	238
Creating detailed travel itineraries	239
CHAPTER 15: Looking at Complete Workflow Examples	241
Exploring Research-to-Publication Workflows	242
Gathering information from multiple sources	242
Creating structured outlines and drafts	244
Editing, fact-checking, and finalizing	246
Reviewing Data-to-Insights Workflows	248
Uploading and exploring data files	248
Analyzing patterns and creating visualizations	250
Presenting results and recommendations	251

Examining Problem-to-Solution Workflows.	253
Defining and breaking down complex problems	253
Generating and evaluating options systematically.	255
Documenting decisions and implementation plans.	256
PART 4: MASTERING ADVANCED FEATURES	259
CHAPTER 16: Working with Artifacts	261
Introducing Artifacts	262
Enabling artifacts	262
Exploring artifacts	263
Requesting your first artifact	264
Recognizing When You Need an Artifact	265
Seeing what artifacts do that conversations can't	267
Understanding when Claude creates artifacts automatically	267
Knowing when to request specific artifact formats	268
Choosing the Right Artifact Type.	269
Creating interactive tools and calculators	269
Building formatted documents and reports	270
Making data visualizations and diagrams	271
Designing web components and layouts.	273
Matching your goal to the right type	274
Requesting Artifacts That Work.	274
Describing what you want clearly	275
Providing the right context and constraints	275
Testing and troubleshooting initial versions	276
Refining Artifacts through Iteration	276
Adding features and improvements.	277
Fixing problems and adjusting behavior	278
Remixing existing artifacts for new uses	279
Using Artifacts beyond the Conversation	280
Exporting artifacts for external use	280
Bringing successful artifacts into new Projects.	281
Exploring Claude Design for Visual Projects	282
CHAPTER 17: Accessing Current Information	283
Breaking Free from the Knowledge Cutoff	283
Distinguishing a web search from research	284
Knowing when current data matters	285
Using Web Search for Quick Information	286
Turning on web search.	286
Asking questions that trigger search	288
Getting current news, prices, and data	289
Looking at what web search handles well and not so well	290

Using Research Mode for Deep Investigation	291
Knowing when research mode beats web search	291
Connecting research mode to Google Workspace	293
Getting comprehensive reports with citations	293
Reviewing research strategies beyond publication workflows	295
Combining Claude's Knowledge with Fresh Data	296
Trusting built-in knowledge versus verifying current facts	296
Blending training data with search results	297
Building reports that use both sources	298
CHAPTER 18: Using Extended Thinking and Research Mode	301
Understanding Extended Thinking	302
Learning what extended thinking does differently.	302
Knowing when to use extended thinking.	304
Reading and using insights from the thinking process	306
Accessing Research Mode for Deep Dives	306
Starting research mode conversations	307
Understanding how research differs from regular chat	309
Getting comprehensive reports on complex topics	310
Choosing the Right Model and Mode for Your Task	311
Understanding model differences	312
Comparing speed versus deep thinking	313
Switching between models strategically	314
Using standard chat for most tasks	314
Launching research mode for a thorough investigation	315
CHAPTER 19: Taking Control with Claude's Desktop Agent Cowork	317
Understanding What Cowork Does	318
Seeing how Cowork differs from regular chat	318
Knowing when to hand off a task	319
Getting Started with Cowork	319
Setting up and running your first task	319
Monitoring progress and steering mid-task	321
Organizing Work with Projects	322
Creating a Cowork Project	322
Setting global and folder instructions	324
Assigning Tasks from Your Phone with Dispatch	325
Setting up Dispatch on your devices	325
Sending tasks and retrieving results	328
Letting Claude Use Your Computer	329
How computer use works in Cowork	329
Enabling computer use on your computer	330

Automating Work with Plugins and Scheduled Tasks	331
Browsing and installing plugins.	331
Setting up scheduled tasks	333
Knowing Cowork's Limits	333
What Cowork can't do yet.	333
Keeping your work safe	334
CHAPTER 20: Fixing Common Problems.....	337
When Claude Completely Misunderstands.....	337
Being more specific.	338
Adding missing context	339
Starting afresh with better framing	340
Knowing When Responses Are Too Generic.....	341
Providing examples.	341
Adding constraints	342
Requesting particular styles or formats.....	343
Understanding Why You're Not Getting Quality Results	343
Checking if you're asking too much at once	344
Verifying that you gave enough information.	345
Trying different prompt approaches	346
Recognizing When Claude Seems Wrong or Confused	347
Spotting mistakes of confidence.....	347
Asking for sources and reasoning.....	348
Knowing when to verify externally	349
Understanding the Pattern Behind Problems.....	349
PART 5: THE PART OF TENS.....	351
CHAPTER 21: Ten Ways That Claude Saves You Time	
Every Day.....	353
Write an Email in 30 Seconds	353
Never Stare at a Blank Page Again	354
Edit without the Pain.	354
Learn a Complex Topic in Minutes	354
Create a First Draft Instantly	355
Make a Decision without Analysis Paralysis	355
Organize Information Effortlessly.....	355
Research in a Fraction of the Time	356
Generate Unlimited Ideas on Demand	356
Get Unstuck Immediately.....	356

CHAPTER 22: **Ten Signs That You Need to Rewrite Your Prompt**.....357

 Claude Asks Clarifying Questions 357

 The Response Is Too Generic. 358

 You Get Something Unexpected 358

 The Length Is Wrong 359

 Claude Seems Confused or Uncertain 359

 The Result Doesn't Match Your Vision 359

 The Tone or Style Misses the Mark. 360

 Regenerating Doesn't Help 360

 You Keep Getting Variations of the Same Thing 361

 The Answer Sounds Like Guessing 361

INDEX.....363
