INTRODUCTION	1
About This Book	1
Foolish Assumptions	3
Icons Used in This Book	3
Beyond the Book	4
Where to Go from Here	4
PART 1: GETTING STARTED WITH TYPE 2 DIABETES	5
CHAPTER 1: Type 2 Diabetes: The Basics	7
What Exactly Is Diabetes?	7
Getting the lowdown on blood glucose	8
Appreciating the power of the pancreas	8
Understanding the impacts of high blood glucose on the body	10
Paying attention to blood pressure	11
The Other Types of Diabetes	12
Type 1 diabetes	12
Gestational diabetes	13
Other types of diabetes	13
Prediabetes	13
How Diabetes Is Diagnosed	14
The Risk Factors for Diabetes	15
CHAPTER 2: Knowing Where to Begin	17
Taking Care of Yourself	18
Feeling better most days	18
Reducing the risk of complications	19
Healthy pregnancy, healthy baby	20
Managing Your Diabetes	21
Assembling a healthcare team	21
Taking medications	21
Checking blood glucose	22
Eating healthy and staying active	22
Finding support	23

PART 2: MANAGING YOUR HEALTHCARE TEAM AND MEDICATIONS	25
CHAPTER 3: Putting Together Your Healthcare Team	27
Starting with a Diabetes-Care Provider	28
Choosing the right provider for you	29
Considering insurance coverage	30
Adding a Certified Diabetes Care and Education Specialist	31
Seeing Other Specialists	32
Dietitian: Helping you enjoy your meals and maximize your nutrition	32
Ophthalmologist or optometrist: Keeping an eye on your eyes	34
Pharmacist: Filling you in on medication details	34
Dentist and dental hygienist: Keeping your mouth in tip-top shape	35
Fitness professional: Focusing on your activity	36
Podiatrist: Standing up for your feet	37
Dermatologist: Helping your skin stay healthy	38
Behavioral health specialist: Minding your thoughts and emotions	38
Other specialists	39
CHAPTER 4: Your Checkups and Diabetes Education Classes	41
Knowing What to Expect in a Checkup	42
Testing your blood glucose	42
Weighing in	42
Setting goals for food and exercise	43
Monitoring medications	43
Measuring your blood pressure and cholesterol	44
Testing your kidneys	45
Testing your liver	46
Screening mental and behavioral health	46
Checking your feet	46
Getting vaccinations	47
Asking questions and raising concerns	48
Making Time for a Yearly Eye Exam	48
Reviewing Your Checkup Schedule	49
Making the Most of Your Appointment	50
Knowing what to bring with you	50
Communicating like a pro	50
Getting Informed about Diabetes Education	52
Finding out when to go	53
Knowing what to expect	53

Keeping up with changes	55
Finding a class	55
Investigating insurance coverage	56
CHAPTER 5: Medications and Surgery	57
Why You May Need to Take Medication	58
Common Medications for Type 2 Diabetes	59
Biguanides (metformin)	61
GLP-1 drugs	61
SGLT2 inhibitors	63
Sulfonylureas	64
DPP-4 inhibitors	64
Less Common Medications for Type 2 Diabetes	65
All about Insulin	65
Insulin 101	66
Types of insulin	67
Buying and storing insulin	70
Injecting insulin: Syringes, pens, and more	71
Insulin pumps	74
Automated insulin delivery	75
Other Medications	76
To lower blood pressure	76
To treat cholesterol	77
To treat overweight and obesity	77
Surgery for Type 2 Diabetes	78
PART 3: CHECKING YOUR GLUCOSE AND REDUCING COMPLICATIONS	81
CHAPTER 6: Monitoring Your Glucose	83
Figuring Out How Blood Glucose Meters Work	84
Knowing when to check your glucose	84
Learning the basics of meters	85
Considering a multitude of meter features	85
Minding money matters	87
Understanding How Continuous Glucose Monitors Track Glucose Levels	87
Keeping Track of Data	88
Choosing a tracking method that works for you	89
Eyeing your glucose targets	89
Putting the numbers to use	90

CHAPTER 7:	Keeping Complications in Check	91
	Looking Out for Lows	92
	Knowing the warning signs of lows	92
	Treating lows	94
	Having glucagon available	94
	Heading Off Highs	95
	Diabetic ketoacidosis	95
	Hyperglycemic hyperosmolar state	97
	Maintaining a Healthy Heart and Brain	97
	Hardening of the arteries	98
	Heart attack	99
	Heart failure	99
	Stroke	100
	Peripheral artery disease	100
	Looking Out for Your Liver	100
	Taking Care of Your Kidneys	101
	Focusing on Your Eyes	102
	Healthy Nerves All Over Your Body	103
	Nerves that sense things	104
	Nerves that automatically do things	104
	Putting Your Best Foot Forward	105
	Getting a leg up on caring for your lower extremities	105
	Keeping Your Bones Strong	107
	Feeling Good in Your Skin	107
	Keeping Your Mouth in Tip-Top Shape	108
CHAPTER 8:	Women and Type 2 Diabetes	111
	Being Mindful of Menstrual Cycles	112
	Watching for erratic numbers	112
	Taking back control	112
	Healthy Mom, Healthy Baby	113
	Planning for pregnancy	114
	Taking care of yourself and your baby during pregnancy	114
	Screening for gestational diabetes	116
	Delivering the baby	116
	Postpartum	117
	Menopause Can Throw You for a Loop	118
	Preparing for unusual numbers	119
	Recognizing that mood swings are normal	119
	Facing hot flashes and night sweats	120
	Coping with yeast infections	120
	Addressing sexual discomfort and desire	121
	Focusing on Your Heart Health	121

CHAPTER 9: Men and Type 2 Diabetes	123
Addressing Erectile Dysfunction	124
Considering the causes.	124
Treating erectile dysfunction.	125
Talking to your doctor.	125
Tackling the Problem of Low Testosterone	126
Focusing on Emotional and Sexual Health	126
Paying Attention to Heart Health	127
 PART 4: EATING HEALTHY AND STAYING ACTIVE	 129
CHAPTER 10: Brushing Up on Nutrition and Food Basics	131
The Difference a Dietitian Can Make	132
What to look for in a dietitian	132
What dietitians do	132
When to see a dietitian.	134
How to pay for dietitian visits	134
Calories Count	135
Nutrients: Carbohydrate, Protein, and Fat	136
Carbohydrate.	136
Protein.	140
Fat	141
Finding Nutrition Facts on Food Labels	143
Paying attention to number of servings and serving size	144
Keeping track of calories	144
Zeroing in on nutrients.	145
Listing ingredients: Most to least	147
Putting the information to work	147
Satisfying Your Thirst	148
Drinking water, soda, and other beverages.	148
Enjoying wine, beer, and spirits.	149
 CHAPTER 11: Planning Healthy Meals	 151
Considering Your Goals	152
Eating a Variety of Wholesome, Nutritious Foods	153
Forgetting about a diabetes diet.	153
Expanding the selection of foods you eat	153
Dishing Up Ideal Portions.	155
Finding an Eating Pattern That Works for You	157
Finding a Meal Plan That Motivates You	158
Envisioning the Diabetes Plate	159
Counting carbs.	160
Planning, Shopping, and Cooking Smart	163
Planning smart.	163

Shopping smart	164
Cooking smart	165
Tempting Your Taste Buds with Nutritious Nibbles	166
Eating Out with Confidence	167
Selecting restaurants with healthy choices	168
Ordering meals that mesh with your plan	168
Celebrating Holidays and Special Occasions	169
CHAPTER 12: Starting and Sticking with Exercise	171
1, 2, 3: Counting the Many Benefits of Exercise	172
First Steps to Physical Activity	173
Sitting less and moving more	174
Talking to your healthcare provider	175
Checking glucose during exercise	175
Thinking about your fitness goals	176
Considering Different Types of Exercise	177
Aerobic exercise: Getting the blood moving	177
Resistance exercise: Building strength	178
Flexibility and balance exercises: Improving range of motion	179
Thinking beyond the Basics of Exercise	179
Warming up, working out, and cooling down	180
Finding the motivation to keep going	181
Envisioning the health benefits	181
Getting help from a professional	182
Boosting your mood	182
Getting support from friends and family	182
Getting detailed feedback from fitness trackers and apps	183
PART 5: FINDING SUPPORT	185
CHAPTER 13: Managing Your Emotions, Mental Health, and Sleep	187
Getting in Touch with How You Feel	188
Facing Feelings of Anger and Denial	189
Acknowledging feelings of anger	189
Dealing with feelings of denial	190
Managing Stress	191
Recognizing Diabetes Distress and Burnout	192
Looking at Depression and Anxiety Disorders	194
Knowing the symptoms of depression	194
Understanding anxiety disorders	195
Getting help	195

Prioritizing Sleep	196
Identifying common sleep problems	196
Treating sleep disorders and improving sleep	196
Being Kind to Yourself	197
Gaining education and empowerment	197
Taking time for yourself	198
Trying mindfulness and meditation	198
CHAPTER 14: Getting Support, Giving Support	201
Reaching Out to Others	202
Joining a local support group.	202
Connecting with others online.	202
Turning to Your Family for Support	203
Telling your friends and family about your diagnosis	204
Educating your family	204
Opening the lines of communication	205
Making healthy food choices together.	206
Exercising together	206
Tips for Partners and Caregivers.	207
Educating yourself.	207
Trying not to be pesky	207
Helping to build a diabetes-care team	208
Seeking out your own support	208
CHAPTER 15: Raising Children and Teens with Type 2 Diabetes	209
Seeing How Type 2 Diabetes Is Different in Children and Teens	210
Helping a Child or Teen Manage Type 2 Diabetes	211
First steps	211
Family changes.	213
Education and responsibility	214
Checkups	215
Acknowledging the Challenges Teens Face	215
Stress.	216
Mental health and social media	216
Alcohol, tobacco, and marijuana.	217
Sexual activity.	217
CHAPTER 16: Debunking Diabetes Myths	219
Myth 1: Eating Too Much Sugar Causes Diabetes	220
Myth 2: People with Diabetes Can't Eat Carbs or Sweets	221
Myth 3: People with Diabetes Should Eat Special "Diabetic" Foods.	222

Myth 4: Taking a Supplement or Herb Can Treat or Cure Diabetes.	222
Myth 5: You've Failed If You Need to Start Taking Insulin	223
Myth 6: Diabetes Isn't That Serious of a Disease	224

PART 6: STANDING UP FOR YOURSELF. 225

CHAPTER 17: Navigating Health Insurance and Other Healthcare Scenarios 227

Protecting People with Diabetes.	228
Understanding Health Insurance: Employer, Government, and Individual	229
Employer-based health insurance	229
Government-based health insurance.	229
Individual health insurance	232
Asking the Right Questions	232
Questions to ask about diabetes coverage	233
General questions to ask about plans	234
Finding Help If You Don't Have Insurance	234
Primary care and specialty care	234
Prescriptions	235
Diabetes supplies	235
Anticipating Other Healthcare Scenarios.	235
ER visits and hospital stays	236
Home healthcare and long-term care	238

CHAPTER 18: Knowing Your Rights 239

Diabetes in the Workplace.	240
Deciding whether to tell others.	240
Knowing your rights	241
Understanding your protections.	241
Educating and communicating with others.	242
Staying healthy on the job	242
Helping Your Child with Diabetes at School	243
Knowing and advocating for your child's rights	243
Putting care plans in writing	244
Planning Ahead for Travel	245
Talking to your healthcare provider	245
Preparing for airport security	245
Considering snacks and meals out.	246
Taking care of your feet and skin	246
Ensuring Safety while Driving	247

PART 7: THE PART OF TENS	249
CHAPTER 19: Ten Fun Ways to Work Out for People Who Hate to Exercise	251
Get a Buddy	252
Play Like a Kid	252
Start Walking	253
There's an App (or Video) for That	253
Turn Up the Volume	254
Think Positive.....	254
Volunteer to Help Someone Else.....	255
Sign Up for a Walk to Raise Money.....	255
Set Realistic and Practical Goals	255
Just Dance.....	256
CHAPTER 20: Ten (or So) Things to Do for Your Eyes	257
Manage Your Blood Glucose	257
Lower Your Blood Pressure and Manage Your Cholesterol	258
Stop Smoking or Never Start.....	259
Be Aware of Major Eye Diseases.....	259
Get Regular Dilated Eye Exams	260
Get the Treatment You Need.....	261
Consider Your Eyes during Pregnancy.....	262
Assess Your Other Risk Factors.....	262
GLOSSARY	263
INDEX	281
